

July, 20, 1903.

The inventor of the WIRELESS TELEPHONE.

NOTES.

on the Life of the LATE F.J.MC-Carty.

PRIVATE ? PROPERTY OF Ignatius McCarty.

- ✓ Born May, 23, 1888. Died, May, 11, 1906.
- Age 17 yrs. 11 Mths. , 13 days.
- Invented Wireless Telephone at 15 yrs. of age. ( Year, 1903 Mth\_\_
- Patent (1st.) applied for in 1904. Caveat applied for in 1903 Mth\_\_
- 03 — First experiments on Gough St. , 25, 50, 75, 100 ft.
- 03 — Experiments on Stow Lake. Twin Peaks, (Beach, Oyster Beds), — 05
- 07 — Schoen's house, F.J.Sullivan's house, St. Joseph's hospital, South Broderick house S.F. to Oakland, ( Hales, Bredull, Schoay, Albert Boss, Mills, brown & Wilson, J.H. McCarty, Seidenberg & davis, Mr. McCann, Mr. Jack Crown & Family. Moraghan?
- 05 — St. Cecile hotel, (Hill near south Broderick St. house. Phone re-04 fused Francis by telephone co. with instructions to go use his wireless phone. His doing so and consequent putting out of order of neighboring phones. Our going to the grocery and hearing Central ask for number and hearing Harry whistle through wireless. The visit of the burglars.etc .
- 06 — At time of earthquake Francis came to S.C.C. and got wire and on returning to the city practised a ruse of being a lineman in order to escape being put to work so he could take his mother and small brothers and sister to a safe home . THE ACCIDENT IN OAKLAND WITH CONSEQUENCES AND CONCLUDING REMARKS.
- 03 — Experiments the morning of the 4 mile test to Madigan & O'neils Stable . Crazy fellow who was told to listen on any Phone in the city and he would hear the test. THE NIGHT OF THE DISCOVERY. THE CONVERSATION OF THE GIRLS TALKING ON THE LINE ETC.
- 03 — Our WORKSHOP in the hall closet. Our wireless telegraph outfit on Hermann St. AND Subsequent Experiments on the Hill.
- 03 — Mast on Gough st. roof , shock received received on gough st., on roof when told by Francis to hold tip of receiver cord on aerial wire and standing on tin roof), (Mother went up stairs and touched tip of receiver on gas jet and heard words plain. Our going down the street and listening 100 ft etc.
- 04 — Our experiments with the arc-light in Francis's room on South-Broderick St. His immediate discovery of the arc light principle To poor to buy resistances and etc. at previous experiments , used buckets of water. Transmitter ( the first ) made by Schell the model maker. Picture and description of mast and antennae on South Broderick St. Station at St. Francis hotel on 12 floor.
- 04 — Borrowed instruments off Mr. Rupert. (Callaghan Bldg. labratory. — 05
- { The voting trust of THE GRAPTERS. Breaking of the instruments by Francis and defying the bunch to bring out the invention as the patents were in his name. Said they would get an engineer etc. }

July 20, 1908

The inventor of the WIRELESS TELEPHONE

NOTES,

on the life of the LATE F.J. MC-Carty

PRIVATE ? PROPERTY OF Ignatius McCarty

Born May, 23, 1888. Died, May, 11, 1906.

Age 17 yrs. 11 Mths. , 13 days.

Invented Wireless Telephone at 15 yrs. of age, (Year, 1903 Mth \_\_\_\_

Patent (1st.) applied for in 1904. Caveat applied for in 1903 Mth \_\_\_\_

03 First experiments on Gough St. , 25, 50, 75, 100 ft.

03 Experiments on Stow Lake. Twin peaks, (Beach, Oyster Beds), -- 05

04 Schoen's house, F.J. Sullivans house, St. Josephs hospital,

South Broderick house S.F. to Oakland,

(Hales, Bredull, Schoay, Albert Boss, Mills, [B]rown & Wilson, J.H.

McCarty Seidenberg & [D]avis, Mr. McCann, Mr. Jack Crown & Family.

Moraghan?

05 St. Cecile hotel,

(Hill near south Broderick St. house , Phone re- (04)

fused Francis by telephone co. with instructions to go use his wireless phone. His doing so and consequently putting out of order of neighboring phones. Our going to the grocery and hearing Central ask for number and hearing Harry whistle through the wireless.

The visit of the burglars, etc.

06 At time of the earthquake Francis came to S.C.C. and got wire and on returning to the city practised [sic] a ruse of being a lineman in order to escape being put to work so he could take his mother and small brothers and sister to a safe home .

#### THE ACCIDENT IN OAKLAND

06 WITH CONSEQUENCES AND CONCLUDING REMARKS.

03 Experiments the morning of the 4 mile test to Madigan & O'Neils Stable. Crazy fellow who was told to listen on any Phone in the city and he would hear the test.

#### THE NIGHT OF THE DISCOVERY. THE

03 CONVERSATION OF THE GIRLS TALKING ON THE LINE ETC.

Our WORKSHOP in the hall closet. Our wireless telegraph outfit on

02 Hermann St. ANd [sic] subsequent Experiments on the Hill.

03 Mast on Gough St. roof, shock received received [sic] on [G]ough st.,  
on roof when told by Francis to hold tip of receiver cord on aerial wire  
03 and standing on tin roof) ,

(Mother went up stairs and touched  
tip of receiver on gas jet and heard words plain.

Our going down

04 the street and listening 100 ft etc.

04 Our experiments with the arc-light in Francis' s room on South-  
Broderick St. His immediate discovery of the arc light principle

To[o] poor to buy resistances and etc. at previous experiments , used  
04 buckets of water.

Transmitter ( the first ) made by Schell the  
model maker. Picture and description of mast and antennae on South  
04 Broderick St. Station at St. Francis hotel on 12 floor.

03 Borrowed instruments off Mr. Rupert.

(Callaghan Bldg. Laboratory [sic]. -- 05

The voting trust of THE GRAFTERS. Breaking of the instruments by Francis and defying the bunch to bring out the invention as the patents were in his name. Said they would get an engineer etc.
