La Jolla, Calif

Dear Sir:

I have been slow answering you as the years and dates had slipped my memory and had to establish them from my scrap book and letters x

You are welcome to use whatever you wish x Only favor I ask is to send me a copy of your book on wireless in its infancy x

There was an assortment = Slaby - Arco -  
De Forest - Massie - Shoemaker - Stone -  
Telefunken - Marconi - Fessenden -  
Keiman

While at Catalina got an offer from Fessenden offering \$300 gold a month to go to South America, on the Amazon and work for them x The dense vegetation grounded the wire circuits so fast they could not keep them clear so they were going to put in wireless x Did not accept as yellow fever was then bad x

Yours Truly
