In addition, there are many amateurs who transmit Morse and music when in the mood for it, generally on less than 200 metres.

The power of the above stations is not given, most of them being licensed for 500 watts, but using very much less. The list itself may contain inaccuracies, but is correct as far as ascertainable.

## TRANSMITTING AND RECEIVING STATIONS—GRADE 1.

Mostly licensed for 50 watts, wave lengths between 150 and 180.
