THE SKIPPER'S LOG

NOV. 1, 1982

### SOCIETY CELEBRATES 15 YEARS OF SERVICE

### HONORING OUR PRESIDENTS

1. RICHARD JOHNSTONE  
1968-1970 [RJ] "Dick"
2. FRANK GEISEL  
1970-71 [FG] "FG"
3. EBEN K. CADY  
1972-75 [C] "Eb"
4. WILLIAM A. BRENNAN  
1976-80 [CX] "Bill"
5. JUDGE JAMES HARVEY BROWN  
1981 - Date [BN] "Jim"

(Continued on Page 29)

JUDGE JAMES HARVEY BROWN

WILLIAM A. BRENNAN

RICHARD JOHNSTONE

"Dick" (RJ) SOWP- #2-S/SGP was member organizing group 1967. He was the Society's FIRST PRESIDENT. Also organized our initial nets. He was early day operator MM and USN. Later Chief Operator KPH, Dist. Mgr. Marine Dept. RCA. Later USN retiring as Commander after 32 years service. President Emeritus SOWP 1970. Honorary Member #2. Silent Key Oct. 9 1972.

## LAUNCHING OF THE S.O.W.P

By The Ancient Mariner

Members of the Society may wonder how their organization came into existence. You may wonder ... who were the individuals who really started the Society and just how and why did it happen?

The scenario of our founding is perhaps quite simple and logical in nature. The 'founder' of the Society, William A. "Bill" Breniman (thats me) I will use the first-person singular from now on in my narrative which I will try to condense, although I think a bit of background furnishes motivation and cause.)

My ties with communications have been strong through all of my life. At the early age of 12 my cousin Gene and I talked to each other via morse code over wires from the house to the bunk-house on on the 'ranch' in Wyoming. Later, I bought one of Duck's Long Wave Couplers and built a receiving station in my Colorado home.

Later I joined the Navy and because I knew the code I was detailed to signal school to learn "International" morse. I also became proficient in wig-wag, blinker and semaphore as well as both codes.

During WW-1 I served on two ships and was paid off at NAT, New Orleans which is really across the river at a place called Algiers. My commercial career included many years operating (all types of ships) I spent time as an entrepreneur in the radio retail and whole sale business. I also owned radio school and was the Southern Calif. Supvr. for SORS. A chap by the name of Jay Peters and I started a 'first of its kind' ... "On Location Radio Service" to permit movie studios to contact sets on location. Due to heavy commitments in other phases, I sold my interest to "Jay". He later sold the equipment to start broadcast stations in Albuquerque, NM and Reno, Nevada. From business back to operating and as MRI for RCA I went into the Federal Airways when they were expanding their system and flying was becoming popular. I had nearly 30 years of tenure in the Civil Aeronautics Administration when I retired in 1958. During this time, fate was kind to me and I not only enjoyed the work of 'building the airways' but I had many credits for pioneering new ideas and seeing ideas adopted. The Airways drew some of the best talent (Operators, Engineers, etc) in the country as the pay was rewarding and the challenges great. My most rewarding experience was in meeting thousands of employees and peers many of whom I still contact although the sheer input of mail that needs attention now inhibits my ability to reply - a distinct negative situation.

Upon retirement, I thought as a hobby or avocation, I should do something to benefit humanity and my fellow workers, hence I decided to try and record the history of the Airways, especially early day communications. I also thought we should form an organization to bind our group together, hence I founded the SOCIETY OF AIRWAY PIONEERS back in 1958. I continued as Executive Secretary of this organization of about 3000 members until approximately July 1971 when I turned the gavel and reins over to Mr. Nelson F. Barritt for reason which will become clear in the following paragraphs.

My wife Ruth and I moved to Santa Rosa, Calif., in 1964 from Santa Barbara to which we retired after leaving CAA (Now FAA).

We had visited the area several times and two good friends in particular (Marge and Jerry Whittaker) and (Frieda and Earl Wohler) "sold" us on moving here. We have no regrets after 18 years of making the move except population growth is pushing us out!

We started looking up old shipmate friends that I had worked with or known during my sea-going days. It did not take long until we had made contact with several dozen of the old-timers. As time

went by, the Brenimans had 'open house' to our old friends between Christmas and New Years. By 1966 the number became so large that we suggested a 'get-to-gether' at one of our popular dining institutions - The Green Mill at close-by Cotati. Meanwhile I had broached the idea of forming a small organization of the old-timers in the area which seemed to 'click'. So it was that in early Feb. 1968 a group of about 45 got together for a reunion and it was here that I proposed the organization which at that time I had named ... "THE AMERICAN SOCIETY OF WIRELESS PIONEERS OF THE SEVEN SEAS" (Quite a mouth full!). Richard Johnstone - former Chief Operator for RCA (SF) Frank Geisel recently retired Chief of KPH, Eb Cady, retired Chief KFS and those attending thought it was a great idea so a new organization was born. At the time, I was acting as M/C so nominated the 'dean' of those attending - "RJ" as first "Prexy". Other offices filled included that of Executive Director (yours truly); Vice President Membership - Frank Geisel; Treasurer - "Jerry" Whittaker; Secretary - Eb Cady.

By late June (1968) nearly 150 had joined the new Society. We decided to change our name as being too unwieldy to that of "THE SOCIETY OF WIRELESS PIONEERS, Inc. which remains our current name. At the end of the first year 290 members had joined the Society. It is worthy to note that the end of the next year - 1969 we recorded Member No. 500. His name was Col. Allen Barnabei. Since then the Society has grown to be the largest professional radio-telegraph communications society in the world with about 4250 members - worldwide. Our "objective and purpose" has changed from that of a fraternal organization to that of collecting, researching and recording the history of communications - particularly that which relates to Hertzian waves and the wireless or radio-telegraph mode of the art.

On a personal note I feel that I should mention the "One Horse Shay" which fell apart just one hundred years and a day after it was built. Ye Ed has 18 years to go before reaching that magical number, however while enjoying good health, the slowing process is noticable to me if not others. My eyes, ears and fingers lack the vitality of bygone years hence it is prudent that others take over the direction of the organization. I will remain as long as I am able to help (perhaps edit a few publications plus furnish material) and in an advisory basis with offer to assist within the limit/s of my capacity and health. I have personally mandated the completion of several projects including the "Almanac", Aviation issue of Sparks Journal, SPARKS IV to name a few. The Board of Governors will receive my request for relief shortly. Action may not be immediate as I will assist though a transition, as necessary. One of our good members with considerable experience in journalism is giving consideration in volunteering for the assignment.

### CHAPTER I - GOLDEN GATE

Director - Paul N. Dane 2195-V [ W6WOW]  
146 Goleen St., Livermore, CA 94550  
(415/447-6355)

First meeting this year was held at the Sea Wolf Restaurant, Jack London Square in Oakland on Feb. 6 1982 which just happened to be Skipper, Bill Breniman's Birthday, hence we made it a gala occasion.

A special "Happy Birthday Bill" roster, signed by all members attending (95) was presented by Chapter Director Paul Dane (seen standing with mike in picture No. 1). A large 3-ring binder with letters enclosed in acetate pockets from President Reagan, Senator "Barry" Goldwater Directors of most contemporary communication organizations, SOWP Officers, Directors and members and others joined in wishing our Founder a "Happy Birthday" #81. He was very 'moved' by this expression of appreciation for work in founding and keeping the Society going since its founding by him in 1968. Meeting was adjourned on a very happy note.

The second picture is a partial view of those attending. Unfortunately we did not have a wide-angle lens to capture the entire group of those at the Sea Wolf.

GOLDEN GATE CHAPTER [ I ] MEMBERS - FEBRUARY 6 1982  
Sea Wolf - Jack London Square - Oakland

### PAST DIRECTORS OF "GOLDEN GATE" CHAPTER HONORED

We recall with nostalgic pleasure the early meetings of our new Golden Gate Chapter. Our first President Dick Johnstone served also as the first director of the Chapter. He was followed by our Second President, Frank Geisel who in turn was followed by our President No. 3 - Eben Cady. Then the top post of the Golden Gate Chapter was filled by Al Holgerson, Don Newman and Bill Breniman (ad hoc). Fred Mangelsdorf served a double-term from 1976 to 1980, most of which was after he passed the 80th milestone of life. We must be thankful that we have men like Fred, who take age in stride and willing to serve their compatriots. Our new Director Paul N. Dane is a busy man indeed and we are very fortunate to have a man of this caliber as our Chapter Chief. Paul is a communications engineer with the Lawrence Livermore National Laboratory and has a very heavy workload that is demanding of his time and ability.

(Continued on Page 35)

Founder Bill Breniman, left. Director Paul N. Dane (I) Right

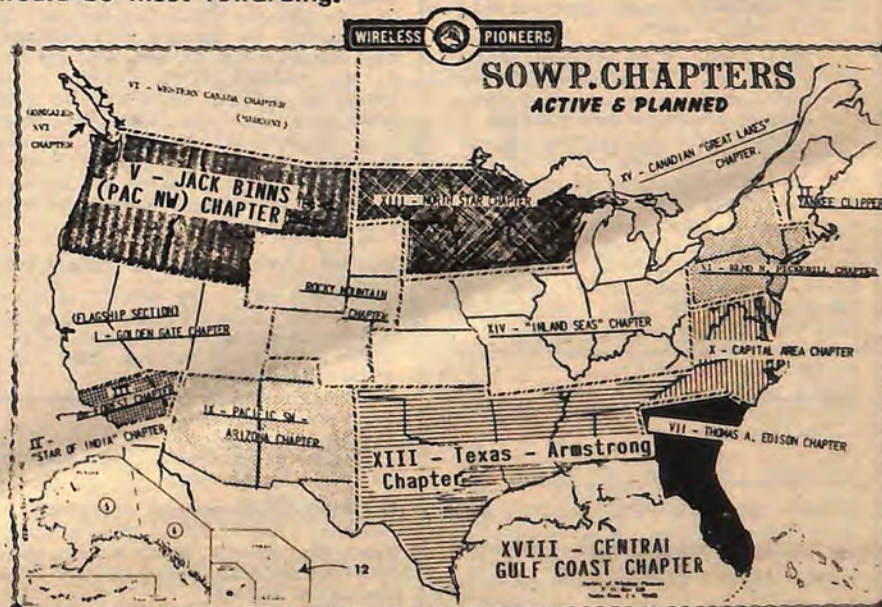

Second big 'Get-to-gether' was held at the Villa Chartier in San Mateo on June 19th which was a 'gala affair' attended by a little over one hundred of SOWP members, wives and guests. The setting in the Winchester Room was very attractive and the food excellent. A happy time by all.

One of the real enjoyable events that drew Golden Gate members was the Picnic held in the Armstrong State Redwood Park on August 20th under the towering Redwood Trees - reputed to be over a thousand years old. Some 75 members attended. A real enjoyable time was voiced by all. This is the twelfth time members have met in this beautiful setting of the giant redwood - it has become an annual event held about 20 August each year (plus or minus a few days to escape the week-end crowds at this time of year. Secretary Bill Breniman made arrangements for this meeting.

**NOTE:** A recent article which appeared in the *ENGINEERING NEWS* published by Lawrence Livermore National Laboratory will be found on Page 28. The story concerns Paul and his work and makes very interesting reading.

### INVITATION

This is an invitation to new members especially and to all members who change their QTH to contact the Director or the officer in their new Chapter Area. They will make you feel at home and invite you to join their meetings, etc. SASE would be appreciated. To get the utmost enjoyment from your Society it would be most rewarding.

## Welcome Aboard!

NEW SOWP MEMBERS - WE WELCOME YOU

The Staff and members of our organization take great pleasure in welcoming the following members into the Society and look forward to meeting you at Chapter re-unions or in the pages of our publications. A fine camaraderie and close fellowship binds members in a brotherhood of cordial genealogy and companionship enjoyed by few organizations. While the preservation of history of the wireless mode of communications is our very dedicated purpose, it also permits us to fraternize and enjoy contacts with friends and shipmates of days gone by. May your cruise with us be a happy one.

'73'

Others: N.A.S. Deland, FL., NAS, Corpus Christi, TX; NAS No. Island, San Diego, CA.; 1945 joined VPB-25, Philippine Isl. and assisted in occupation activities in Japan and China. Naval Air Missile Text Ctr., Pt. Mugu, CA.; NAS Whidbey Isl., WA 1951 squadron was sent to Okinawa to take part in Coast patrol along China Coast.

SOS: While on patrol China Coastal area, plane fully loaded with fuel, bombers and ammo., #1 engine suddenly quit and we came within 3 feet of having to swim home. Sent EMERGENCY CALL.

Also on May 30, 1975 while assigned to the SS Delta Mar, she was struck by a Liberian Flag Tanker 100 miles S.E. of the Galveston (TX) seabouy. All communications were lost due to the loss of primary AC power. I sent the distress signal on 500 khz but rec'd. no reply. Asked Captain's permission to put my FT-101B on the air and use the ham bands. For 16 hours I ran distress traffic on the 40 metre ham band, about 7260 as I recall. One of the stations which answered me was Bob Warriner, W5TT, a shipboard Radio Officer home on vacation.

Is currently permanent Radio/Electronic Officer on the MV Sealand Innovator.

FS: 1942 - WM WAIPAHI/ZLW  
Others: MV Pt. Waikato/ZLD

OTHER: Served a CR/O during WWII and  
also as a Pilot with Union Steam Ship  
Co., NZ insuring that the Radio and  
Navigational Aids were operational be-  
fore each flight & Hadfield was license  
No 246 and Aircraft Radio Telegraph  
Ops. Cert. and License No. NZ3. Handle  
position reports, weather conditions,  
etc. and insured correctly coded (secret)  
Secret codes were bound by a steel cover  
so that in case of a raid by an enemy  
ship or submarine the code could be  
thrown overboard. Radio shack was pro-  
tected by reinforced concrete. After  
WW2 I WAS EIC in Charge of the Rdo/Sec  
svcg. 22 C47 Douglas Daknota Aircraft.  
As civilian was Rad. Engr. to a local  
firm servicing DC3 and other civil and  
airline planes. A Lockheed Electra 10A  
that Hadfield flew is now in Auckland  
City Transport Museum.

ANCE WING, TRAVIS AFB/VARIED  
OTHERS: 1953-54 USAF 99TH STRAT. RECON.  
Wing; 1955/57 USAF Reserve Wing, Mitchell  
Field, NY. For the 1st time in Strat.  
Air Command Weather annals, crew B-5  
attached to the 23rd Strat. Recon. Sqd.  
made the 1st successful deepsonde re-  
lease from a true altitude of 41,627 FT.  
On Crew B-5 perfect coordination was had  
between R/O A/IC J. Dimento and other  
crew members. Thus the dropsonde release by  
Maj. Smith and crew set a new unprece-  
dented record in SAC and may open up new  
fields of weather information security  
for the future.

## Silent Keys

When news concerning the death of a Society member reaches us, we first make the necessary notations in our personnel records. This information is then given to Vice President Eb Cady who sends a letter of sympathy to the spouse or a family member. The 'Necrology Section' of the Skipper's Log carries the notice for all members and a copy is sent to other organizations in the communications field.

Usually, there is a delay of several weeks or months before the "Silent Key", name and date, appears in the Skipper's Log. Often Chapters do not receive the information in time to send a card or note to the bereaved family members.

May we suggest that members, learning of the death of a fellow member, inform both HQ. and the Secretary or Director of their area chapter. This will allow chapters to respond without delay and perhaps on a more personal basis. Also .... try to insure the authenticity of all such reports to guard against embarrassment to yourself and the Society.

Should our deceased member also have been an amateur radio operator, the news of his death should be sent to V.P. William C. Willmot [K4TF]. "Bill" is Editor of "Amateur Radio News" for the Society and he will include such information in the NETBUL publications on our nets.

To the families of the recent 'Silent Keys', Officers and members express their sympathies. A moment of silence will be observed on all nets in memory of deceased members.

## May We Always Remember Them.

# WIRELESS PIONEERS BULLETIN BOARD

The following space is provided as a 'meeting place' for our members - to ask if anyone knows where an old shipmate is? It will provide a potential input from others who might answer the above or most anything you wish to inquire about. All we ask is that you keep them short, non-commercial in text and in the field of our profession. They are in the context of ... "WANT TO KNOW". There is no fee of course for insertion. One only please.

**HALIFAX RADIO - CFH** - The Canadian Navy Radio Station, Newport Corner (CFH) is attempting to establish a permanent file of photographs and stories of its history, especially the war time years of 1939-45. If you served in Newport Corner and can contribute in any way, please contact Major A.T. Hanway, C.D. NRS, Newport Corner Elleshouse Post Office, Hants County, N.S. Canada B0N 1L0 (Request by Member John E. Sandison, 2928 Queen St. Regina Sask.S4S 2E4

**WANTS TO KNOW** - Names / QTH of any members who attended the Pacific Radio School in San Francisco during the winter of 1930-31. QSO - Alfred C. "Woody" Woodbridge W7MVF, 202 M. St. NE, Auburn WA 98002.

**WOULD LIKE TO KNOW** - "As an Ex-Op of the '20's' it would be very interesting to learn of the present wage scales, condx, etc. on various super-tankers and other ships. Submitted by Member Lewis W. Bear, Apt. C-303, 2 Oak Brook Club Dr. Oak Brook, IL. 60521. Lew says he was making about \$105 per mo. from Gulf Refining operating out of "WPA". [Furnish SOWP and we'll publish next Log.]

**WANTS TO HEAR** - Member Howard M. Zwicker, 611 E. Oak St. Millville, NJ08332 would enjoy QSL from any surviving sea-going R/O of early 1930's era, especially from the Boston Trawler Fleet and the colliers of the Mystic Fleet.

**WANTS TO BUY** - Member George F. Marts, W0TDH, 4201 Colvin Dr. St. Louis, MO 63123 would like to buy a 24-hour brass shipboard clock like we had aboard ship for his ham-shack to remind him of his "Sparks" days. Can anyone help?

**WILL EXCHANGE IFN.** Swap personnel rosters of military and civilian personnel at land-based comm. centers of Army, Navy & USAF during and after WW2. Can photocopy originals and return. Also collecting call signs and tape-relay routing indicators. Will reimburse postage for material furnished. Contact: Arnold J. Madiol, W/O Signal Corps USA (Ret.) 436 Orchard Ave. Grand Haven, MI 49417. [This is not a commercial project or venture].

**CQ DE WPD** ... Dan Whitman 3090-M, Resident member, makes request on behalf of Station WPD for Historical Information about the station, ie: Owners, Past Ops, Equit. etc. They are trying to work up a history of WPD. Dan says if he can glean enough Ifn about WPD from sources near and far, he would write up an article for SOWP on the station from the records. Anyone who can help is encouraged to assist in this worthy project.

**TITANIC PINS** - Free to members requesting and furnish a SASE, ie Stamped addressed envelope enclosed. The PRICE IS RIGHT! We will continue to honor requests until Jan. 1 1983. The First pin is with compliments of the Society - Honoring Rudy Asplund one of our early benefactors and commemorating the 70th anniv. of the Sinking of the Titanic some 7 decades ago. If you wish extra pins the tab is \$3.50 each or 3 for \$10 (limit). Extra pins sent postpaid but we would still appreciate a SASE as it reduces work at HQ.

**BRUSH UP ON YOUR CODE SPEED** - Code proficiency drills are transmitted from WB3IVO each Saturday and Tuesdays starting at 0200Z on 3560 Kcs. Each Sat. & Sun at 20000Z on 7060Kcs. Mon thru Fri. starting 1930Z on 14050 kcs. Speed ranges from 20 to 60 wpm. This service is furnished by the Institute of Radio Communications, 6108 Old Silver Hill Rd., District Hgts, Md. Citizens Bank Bldg., Room 211 Member Conan W.B. "Red" Barger (2941-P) W3CVE.

**WANTS TO KNOW** - Hart York (3326-P) QTH: 17356 Miller, Fontana CA 92335 would appreciate ifn on names of HARBOR TUGS used by the U.S. Army in and around Manila 1935-1940. Would also like to know names MSTs working Pacific area up to WWII.

**BELGIUM CONNECTION.** Marc De Moor, [TA-152] QTH: Vredestraat 13, B-9720 De Pinte, Belgium (ON1GR) would welcome hearing from members in the U.S., Canada etc. on "History" of the Wireless and radio. Glad to exchange letters re: development and history, etc. etc.

**QTH WANTED** - Member Frank W. Convery 1463-P informs us that Harold Cottam, Wireless Operator on the Carpathia(MPA) the ship that played such a prominent part in the rescue of many passengers and crew members of the Titanic, is still living in England but writes to no one. [He must be nearing 100 years of age]. We would like to send Mr. Cottam one of the Titanic Pins if anyone can furnish his present address. Write SOWP, POB 530, Santa Rosa, CA. 95402

**NOW WE KNOW** ..... (Who der mean widdle kid was at WBL). "I would like to get in touch with the Wireless Operator who was on duty at the old Marconi Wireless Station WBL in Buffalo in 1916-17, or someone who knows who was the operator there at that time. I would like to belatedly apologize to him, that it was me who grounded his antenna and for an hour or so, had difficulty clearing either the SS City of Buffalo, City of Cleveland or SS City of Detroit as it left the dock at 6 PM one evening. When he found out the trouble of his weak signal and came back on the air full power, he said to the operator on the ship ... "Some S.O.B. grounded my antenna." I was a kid then, very interested in radio. I held Station WBL in awe, as well as the operators. I do hope the Wireless Operator on duty is still living or the operator who was on the ship involved is still around. Perhaps someone could tell me who was Wireless Operator at the time? Sig. Henry A. Pierce 1707-SGP. 1 Teepee Trail, Seminole Park, FL. 33021. [Ed. Note: Count our blessings - Fortunately Henry was not electrocuted 64 years ago when he 'pulled' this dastardly job and (2) fortunate for the Op on duty it wasn't one of today's ... mean widdle kids. They'd have blown the joint up!]

**WANTED FOR HOBBY** - Foreign paper money. One piece or many pieces. Let me know how much you want for it or I will make an offer for it or will accept it for free. Let me know. Thank you. Buddy R. Hicke, 1854 East Bay Drive, North Bend, OR 97459. [Ed's note: Buddy's card reads ... "I worked for my retirement, Now I beg for my hobby.)]

**WHAT IS NAME?** Member Corwin Roberts asks: "What is the name of the old MSTs now under some other name? BQ by Bill Willmot: The new name for the old MSTs is - Military Sea-Lift Command - (MSC).

**NACE CAMPBELL - QTH REQUESTED.** If you know whereabouts, inform Frank Somers c/o Earl W. Korf. He would like to located. Campbell used to be with the Great White Fleet and Grace.

**PAGE MR. GUINNESS... RECORD?** Earl Korf now has 10 "SOLID COPY AWARDS" Anyone in SOWP top that? He still needs Transpac and Jack Binns 80 meter net to hold a "Five Star" award.

**TESLA** ... The following post-card note received some time back reads as follows: "Tesla Coil Builders Assn.(TCBA) memberships now open. Send SASE to: TCBA, RD3 Box 181, Glens Falls NY 12801" [Tesla buffs might be interested - We know nothing about them]

**PHILLIPS CODE BOOK** - Where can buy? Member L.E. Bachman, PO Box 621, South Dennis, MA 02660 made inquiry some time back where he might buy copy? Member Wm G. "Bill" Gerlach (I think) published a late edition of this little book quite a few years back. He has since retired but might be able to furnish ifn. If you write to him be sure and furnish S.A.S.E. to make it easy to reply as he finds it more difficult to write. His QTH 650 West Harrison Ave. Caremont Manor, Claremont, CA 91711. The T.C.R. Edition of Phillips Code was published (revised) in 1945.

**"Q" SIGNALS** - Who Started? Member George Wedemeyer 1885-SGP, 2280 S. Industrial Hwy, Ann Arbor, MI. 48104 ASKS ... "When, Where, How and by Whom were they started? We know there was an international meeting in London in 1912 adopting them. This seems to be a truly significant accomplishment in the nature of an international language but the actual origin escapes us.. If you have some good source material on the subject, send it to George and we would also like a copy so that we can publish in a later issue of the Journal.

**WANTED** --- Copy of Mary Texanna Loomis book RADIO THEORY & OPERATION, circa 1926. Please contact Bill Flanik, SOWP 961-V. He will reimburse handling charges as well as named price. Anyone having a copy invited to phone him at 804-239-5826. His QTH: PO Box 4154 Lynchburg, VA 24502.

**LENA MICHELSON - QTH ???** Mention Page 4 [Pioneer Wireless Women] edition of Sparks Journal. Can anyone furnish information about her. Still living, QTH, etc.? Many wrote in and would like to know.

**WANT TO KNOW** -- Can anyone advise if RM 1/C Daley ever received Posthumous recognition for sticking with his key when the USS MACON sank Feb. 12 1935. He was sending MO's for ships to locate the Macon and stuck with his key while the ship was sinking with the resultant loss of his own life so others might survive. (See next page)

# The Bulletin Board

## INREQ - RM 1/C DALEY (Continued)

A posthumous decoration of some kind should have been given his family. The query is by member John E. Layton, W7GPS (SOWP - 2291-P) who on the USS ARIZONA and took part in the search along with other ships to rescue survivors..

**SHARP EYES** - Member Carl D. Short refers to pictures printed on Page 34 of the 'Pioneer Wireless Women' issue (SJ 4-3) said picture at top of page did not look like the SS City of Los Angeles. Said he can't trust his 82 year old memory too well but it didn't look like "KOZC" as he recalled it had 2 stacks. BQ: Nothing wrong with you computer Carl. This is the first transposition error made by our printer since he started publishing the Journal. Acutally the picture of the two stacker shown on bottom of page is the SS City Of Los Angeles while the pix of 4-stacker in the USS Von Steuben-NACC and should have been positioned at the bottom. When 'Ye Ed' first saw the error he felt like uttering some choice words in ancient Sanskrit as he sailed KOZC for nearly two years and the error would be hard to 'live down'. On balance, we think our printer has done a very fine job with very few errors considering the volume and complexity of our publications. Anyway, a tip of the hat to Carl and we hope all others who note the error will forgive our printer for this boo boo.

**WANT TO KNOW** - Member Raymond W. Phelps (Ray) 315 W. Carmen Ln, Apt. 93, Santa Maria, CA 93454 - "Does anyone know the whereabouts of James Bell who attended the Marconi Institute in Lower NY, believe off Church St., in the winter of 1920. Would like to contact if still living or know details about him.

**WAC ARMY RADIO OPERATORS.** This RQ came in some time back from Member Don B. Masten Sr., QTH: McIntosh Place, Apt. #103 Newburg, NY 12550 (777-V). Don sailed or worked with many former WAC Army R/Os in the Army Transport Radio Station WXCB. Many of the WAC's sailed on U.S. Army Hospital Ships. Don says they were all real good operators with a pleasing fist and easy to handle traffic with. Don says he would like to communicate with any of the girls who worked at ATRS or on USAT or Hospital ships. So if any of our members have QTH of these gals, send it on to Don.

## WANT TO KNOW COLUMN

*We hope your "Want to Know" Question has been published in the fore-going page/s. Should you wish to have your query published in the next SKIPPER'S LOG, mark it "WANT TO KNOW" and send it along. We will also furnish it to our nets so that they might air it far in advance of publication. There is no charge of course for this service. Perhaps you can find out what became of an old ship you sailed on long ago, an old shipmate or (?). We will be glad to publish in coming issues.*

# VOX POP

## VOX POPULI - "VOICE OF OUR MEMBERS"

Just an idea for what its worth: "I think 'Sparks Journal' would sound more professional if it were named 'Wireless Journal'. "Walt" (Walter A. Budwig - 1749-P)

**AUTHORSHIP REWARDING.** Many SOWP members write those whose stories appear in the Journal, Etc. and tell them how much they enjoy their wonderful stories. If you enjoyed a particular story and realize the amount of time it took to put together for your benefit, why not drop him or her a line. They enjoy it no end. (Bill Willmot)

## SKIPPER'S LOG 81-5 vs MURPHY's LAWS.

Several members with sharp eyes caught the error in the Log's Mast-head in this last issue. The word PIONEERS was sans its required "R" so it came out PIONEES'. Of course we are always more than a little bit chagrined when something like this occurs but it seems to be one of the booby traps on our obstacle-course in getting publications in the mail. We caught the error before the Log went to press and made up another heading which was sent along to the printer. Regretfully, the individual responsible did not locate the change and went ahead with the original copy. Parenthetically, it was not our Sparks Journal printer.

Few members perhaps realize the hours of checking and rechecking that is done in trying to perfect copy. Our only rebutal is ... and a poor one at that ... we frequently find major publishing errors on the big name newspapers and even top magazines.

**"FELLOW" MEMBERSHIP** I would like to suggest the upgrading of outstanding members to "FELLOW MEMBERS" and I nominate John Elwood, VP Membership as first choice for consideration. John has given yeoman service to the Society for years and continues to maintain a high profile via his many contributions. (Bill Willmot)  
[ A very worthy suggestion. We have quite a number in this category who would qualify. Our BOG will consider the matter further. CX ]

**QUESTIONNAIRE** - "What Would You Like to Read About"? BQ by Member Robert Kreisinger -2534-SGP. 1- South Wellfleet and other Cape Cod Stations. 2. High-Power stations of the world.  
[ We have an excellent article coming up in SPARKS IV when time permits publication. Also several large stations (HP) will appear in early Journals.

**TITANIC PINS** - Orders for additional pins.  
As members know - we will be glad to send members who have paid their 1982 dues ONE Titanic pin without charge. We have requested that members furnish a S.A.S.E. to reduce handling time on order. Several members have indicated they would like additional pins which to date we have had to turn down. It appears however that we will have some extra pins, hence subject to stock on hand, we will honor orders from those who have already received their complimentary pins at a cost of \$3.50 each. Member should send a S.A.S.E. with 29 cent stamp attached. The extra 9 cents is to conform to a new postal regulation that requires an additional 9¢ on letters that are 1/4" inches thick or more. Where 2 or 3 are ordered, a 37¢ stamp should be affixed. Please be sure envelopes are of good quality. Limit is 3 pins ( 2 in addition to the first complimentary pin furnished).

**KENNETH E. GOSS III** -Member Samuel Margolis would like to QSO. Sam says last known QTH Chicago. He roomed with Ken during 1936 maritime strike in Philadelphia. Last QSO at ARTA Hall in NYC would like to locate old seamate. Drop line to Margolis, North Sea NY 11968

## OVERLOOKED FOR "WHERE ARE THEY" SECTION:

Member Jack Jeffers would like to located the following shipmates. If you have a lead, contact Jack at 8007 East 88th St. KC MO 64138

**FRANK L. KLUG** - Formerly Baltimore. RM3C USN Pt.Reyes  
Compass station NLG 1920

**NORMAN RICHARDS** - Formerly San Jose. NPG Xmtr 1922

**EDWARD GIRARD** - R/O Several President Line ships early 20's  
also states line. possible with ITT during WW2.

**RUSSELL PRAY** - Instructor Pacific Radio School early 1920's

If you can assist Jack, please forward dope. Laird B. Jeffers Sr.

**WOULD LIKE TO CONTACT** - John K. Aiton W6HAG (3818-V) would like to contact anyone who sailed on the SS ALEGHANY or any ship of the line owned by the same SS Co. She sailed between So. American and the East Coast. Used to train Navy personnel. She has 2 5" guns on the fantail and 20mm & 50mm in the gun mounts. Write John QTH 38036 Noble Canyon Dr. Palm Desert, CA 92260 if you have any information.

## ALASKA PACKERS SOLD.

Many of our members will recall the nostalgic edition we ran on the Windjammers and other ships that engaged in fishing the waters of Alaska. This special issue titled " Bristol Bay Edition was published last year and featured The Great 'Star Fleet' of the Alaska Packers.

The Alaska Packers Association was one of the oldest seafaring names in the maritime history of San Francisco and among the last to use sailing ships. History must record that this company which was founded in 1893 was put of for sale by Del Monte Corpn. present owners at it no longer fits their product mix. In later years (1916) it was among several companies that mergetd to form the California Packing Copr. that used the Del Monte brand Name. Many will recall the labels - Arctic Red, Horseshoe, Cape Kariuk, Chief Canoe, Lilly, Seward, etc.

This unit was put up for sale late last year. Del Monte was acquired by R.J. Reynolds Industries in 1979.

During the heyday of the Packers, a sailing ship would return from Alaska with 80,000 cases of tinned salmon in its hold.

## "DO IT YOURSELF" SHIPBUILDER

Note from Member Wes Marriner W9AND (TA-104) relates that in 1745 his Grandfather's Grandfather built his own ship and sailed it to Delaware in 1745 from Folkstone England. His name was George Marriner and he built a tavern in Delaware which was famous for a hundred years or so. He was a good friend of George Washington, whom we all honor as the Father of our Country.

[ Ye Ed - Wonder what kind of a crystal set George had ?]

## THE WIRELESS PIONEERS

## VOX POP PLUS

ED TOBATT JR. KA4RZM [ 3561-M] While he was one the USS Monrovia in the Med with the 6th Fleet. Wonders if some of his ship-mates ( Micky Komora, Gerald Copeland or Tom Curran are members of SOWP or where they are ? This was back in 1962. Checking our roster. We do not list the above as members although we have some of their namesakes. Anyone knowing QTH please QSP to Ed Tobatto 1130 So. Banana River Drive, Merritt Island, FL 32952.

PICTURE OF OPERATING ROOM ON THE RMS TITANIC -MGY ? Member Bob Kreisinger 2534-SGP says the "Titanic Issue" was excellent but ... no pix of the station itself ? We do not recall ever seeing a picture of the actual installation on the Titanic although we have run pictures of 'duplicate' installations ( one said identical) on other ships of the same era, perhaps the Carpathia if memory serves. Back to Square One ... If any member can furnish a picture of the original TITANIC installation we would appreciate it very much.

### THE SS. TITANIC

While on the subject of the TITANIC we wish to correct a misconception in the minds of some of our members that text on Page 30 of the "Titanic Edition" ( Vol. 4 No. 4 ) might have given. The text reads ..." This was the first use of the SOS signal used at sea "

Our good member Louise Ramsey Moreau, W3WRE (TA-25) points out the statement per se is incorrect as Operator Theodore Haubner on the SS arapahoe, Aug. 11 1909 sent SOS as the ship was dangerously near Diamond Shoals as she broke her shaft 21 miles SE of Cape Hatteras and a strong NE gale was driving the helpless ship toward the dreaded "graveyard of ships". This is first recorded instance of an American ship sending the SOS call. Parenthetically it might be added that Operator Haubner also "CQD" (for insurance that he was heard and understood). Bibliographic reference is "SOS to the RES-CUE" published by member Karl Baarslag - 175-SGP back in 1935.

It might be noted that SOS was officially adopted by international ratification in 1908, but the older "CQD" lingered on for several years, especially in the British service where it had originated. It was not until smashed into the ice-berg that fateful night of April 1912 that Jack Phillips sent "SOS" after sending "CQD" ... just to make sure and as a suggestion of Second Operator Harold Bride and Captain E.J. Smith. (\*The Titanic)

" Lou" Moreau makes the point that ..." Too many of our legends, and too much of our tradition ( telegraph as well as radio) are clouded with a lot of incorrect material, mainly because of very simple and at times, unconscious errors that seem to hang on rather than true facts." We wouldn't agree more and thanks for calling this to our attention. Actually we published this correct version in the SOS/CQD Chronology some time back.

We think that Author d'Onofrio meant that it was the first time that a large ocean liner on the Trans-Atlantic run had ever used the SOS signal due to their inborn preference to CQD - originated by the British verses SOS suggested by the Germans. It is recorded that the Americans recommended "CQ" which was not adopted. It took the Titanic Tragedy to bring all interests together in the use of a common signal.

NSS STAFF PICTURE 1938. Member George W. Hoskinson, 2866-P said that he recognized an old shipmate in the photo of the NSS staff published on Page 27 of the NAA/NSS Edition (3-3). The third man from the left in the front row (with sword) is Chief Radio Electrician LUKE W. DUFRESNE with whom he served aboard the USS New Orleans. Hopes someone will identify the others. George's QTH is Star Route, Box 107, Montague, CA 96064,

SAD NOTE. Report the passing of XYL Eleanor, wife of our member Arnold J. Madiol [ 2193-V] in Grand Haven, MI, May 2 1982.

#### RECORDS - PROBLEM AREAS.

Records/reports, especially ham calls, addresses etc: LETTERS U & V (Often impossible to decide which intended.) Ditto D & O. E & I (especiall small case also lower call 'c' might be e or i. LETTERS above cause a lot of trouble. Some FIGURES: 1 & 7; 9 & 7 or 1 etc. Some we can check with Amateur Call book (takes time). Others we have no way of checking. Care in lettering would be especially appreciated to expedite record keeping and to insure your publications etc. will reach correct address. Ham cards - 1 (One) and letter I (eye) are especially troublesome. Ditto D & O, U & V mentioned above. We do our best but sometimes its difficult.

"SPARKS, REGARDING THE WORDS 'CLEAR AND CALM' IN THAT LATEST WEATHER REPORT....."

#### SS FLYING ENTERPRISE

Member Thomas De Meis, 3750-V furnishes the following " for the record" Re: SOS/CQD Edition ( 3-3). Page 8: The Radio Officer on the SS Flying Enterprise was David Green but I'm not sure of the spelling since I haven't seen him since Alexandria, Egypt in the early 1950's when he was on Flying Enterprise II. Also R/O on the Mormackite was Marvin Kneiger.

PAGING MEREDITH (MERRY) LANDAKER. Duane D. Latourell, SOWP 925-P would like later ifn or whereabouts of "Merry" whose last QTH was Salem, Oregon circa 1928. Merry sailed for the Admiral line out of Seattle. Duane's QTH: 7350 W. 87th St. Los Angeles, CA 90045.

HELP PUBLICIZE THE SOCIETY. Our Vice Pres. P&R, Bill Willmot sends us the following which we think is a real fine idea:

"Every member of SOWP who is an active amateur operator can help us publicize our Society. There are many eligible members who are not aware that we exist. We need to make them aware.

A simple way to achieve this is by every amateur member simply asking every new contact if he (or she) has ever been a professional brass pounder ? Regardless of the answer, our members can mention that THEY are members of SOWP and are looking for others who are or were professional CW operators. If the response is positive, it is the perfect opening for a little SOWP Publicity. Who knows, you may recruit a new member. But - even if you don't, you will have helped spread the word about the Society.

THIS IS STRICTLY "QT" Member Bob J. Sweeney 1474-SGP of Ft. Lauderdale, FL furnished this IFN when he paid his dues some time back... " Don't tell anyone I told you but Bill Willmot now is the proud owner of one of ARRL's highest awards the "A-1 Operators club certificate". Bill is very dedicated to the Sunday CW net which meets each Sunday at 2PM EST. He is a very good operator and is very courteous to all net members while handling the net in an A-1 fashion. (Real nice to know - Ye Ed).

#### 1982 CALENDARS.

If you didn't get one, don't think you were left out as we didn't mail any. We did have a few samples printed up but didn't like them so didn't go ahead with the program. We do like to furnish our members with calendars but workload has prohibited getting them out. We don't know yet if we can get one out for 1983 or not but we will try but don't write if you do not receive one - it just adds to our misery.

Member R. H. 'Dick' Blake 2158-SGP says he served aboard the USCGC Modoc on ICEPATROL in 1925. Services were held over the grave of the Titanic on the appropriate date. Says our TITANIC PIN means a lot to him.

George E. Sterling, SOWP 438-SGP who lives up at Peaks Island, Me. recently informed that his long time friend and winter neighbor down in Sarasota, FL - "Jimmy" Nicholson, X-CAA & Navy became

(continued next page )

## VOX POP PLUS

GEORGE STERLING - CONTINUED.

a Silent Key a few weeks back. Jimmy had been in the hospital due to heart attack but well on road to recovery when his XYL found him slumped over his operating desk. Jimmy was well known in the CAA and Navy Communications. Ye Ed relieved Jimmy circa 1950 as Deputy Chief of Communications under Eugene Sibley in Washington when Jimmy left on his Navy assignment.. George Sterling, it may be recalled was author of the very well know ( and prestigious) STERLING'S MANUAL - a very fine text and reference book for engineers and technicians. George was identified with the early days of the (now) FCC and one of its anchormen.

OLE SAWYER ... Another well known CAA'er now reported a silent key was Ole Sawyer of IX-CAA. Reported by Max R. Otto.

**COSTS ARE UP.** The following article clipped from a recent Association Journal is indicative of how some of our costs are still on the rise although it is reported the rate has slowed some.

## Non-Profit Assns Whacked by Big Postage Increase. Up 2¢ Each

The long-feared postage hike for non-profit organizations finally happened last week, as the US Postal Service raised publication and bulk mail rates for preferred mailers about 2¢ per piece across the board. This virtually doubled the presorted carrier route price, to 4¢ per piece, and pushed all non-profit prices to the "Year 16" level on the phasing schedule.

Congress, by its 3rd continuing resolution, cut USPS public service funding to \$230-Million, \$414-Million less than the amount set in the Postal Reorganization Act and the USPS budget request. Funding for the "revenue foregone" subsidy was cut from the requested \$799-Million to \$639-Million, triggering the non-profit organization postage increases. □

It might be of interest to note as we did - the value of the dollar as it compared to 1968 when the Society was founded. According to an article in a recent Washington D. C. publication - "Association Trends" ... the dollar is now worth only 34.8¢ vs. 1968. It is food for thought.

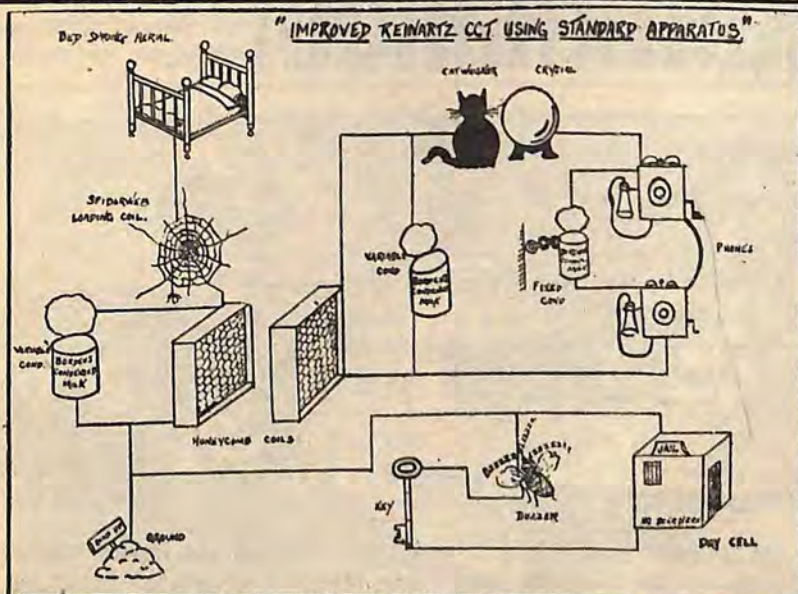

## CAULKING COMPOUND

One of the Society's top projects is that of furnishing copies of our Journals and other publications to members who, through no fault of their own, are unable to continue sending in their yearly dues because of illness, hospitalization or adversities, including the fact that low fixed pensions does not permit continuation of active membership as required. Many of these members are in nursing homes, racked by pain and suffering. Many can no longer read or write and rely on relatives or friends to be their "eyes" and handle their correspondence.

We have received many reports of the joy some of these members are receiving through having a nurse or some one willing to take the time, read the stories and articles in our Sparks Journals and other publications we have issued.

I am happy to say that we have had many volunteers who have send in donations ( Caulking compound ) which we place in our "JACK BINNS" fund for the purpose of assisting some of his unknown ship-mates. One member we would like to mention in particular, sends us a monthly donation on a scheduled basis for this purpose. Being a modest person does not want his name mentioned so to "CDM" we send a 24-Karat "Thank You". Unfortunately, too many of our Senior Spark Gap Pioneers and SGP's are in the age group vulnerable to the vicissitudes of advancing years. We must always remember these pioneers as the avant-garde and true pioneers in our Heritage.

We would also like to suggest, especially to members who have been blessed with the material things in life that those who can, consider a bequest to the Society in their will to insure fiscal stability of the

Ancient clipping from the files of member -  
Captain Charles E. Biele - 768-SGP.

" IMPROVED REINARTZ CCT USING STANDAR APPARATUS "

Society in the years ahead. We should insure the longevity and endurance of our fine organization to enable those who take over, the ability to complete the historical records we have initiated and to furnish the degree of membership that our present members enjoy. It is worthy of your trust and consideration. WAB.

Member "Bob" Peebler (291-V) reports from Galveston that after many years ashore ( last 15 at KLC) he is at sea again aboard the SS Cove Tide - KFRJ. Says he is sure enjoying his new assignment but finds lots of reading 'to do' with the new fangled equipment including satellite communication terminals, etc. Sends 73 to all .

### REPORT FROM NORFOLK ISLAND....

... and just 'where' is Norfolk Island ? you might ask. Well its off the toe of the New Zealand boot (almost a straight line - about 500 miles up the Tasman Sea and very roughly 1200 miles east of Brisbane Australia. Now you know where it is what about it ? Well, historically, Captain James Cook discovered Norfolk Island in 1774. "It is an Island Paradise", he wrote. It is recorded that in later years the fun-loving descendants of the Bounty Mutineers arrived on the island from Pitcairn. It was on the day of June 8 that the Islanders celebrated and still celebrate, Anniversary Day. The Island teems with birds and their songs, and in the valleys the birds and the flowers create unbelievable scenes. One minute you think your in England, the next in the tropics - then you might find yourself in Canada or North America. The feeling of the place changes almost every mile. The Islanders take a fanatical pride in their gardens, designed not only for beauty and color but also for perfume.

Now that you know where Norfolk Island is and a bit about this delightful spot in the South Pacific, I'll tell you that one of our good YL members lives here. It takes a bit of time for mail to reach them but Kirsti Jenkins-Smith (SOWP-3534-M) VK9NL says she enjoys the "Jornal" so much that he takes "the afternoon off" to read and reread it the day it arrives. Kirsti started going to sea in 1956 as Sparks on Norwegian ships. She said she enjoyed the Special Edition on the Pioneer Wireless Women. She says that Olive's story brought back what it was 'really like' - be it 'mother-henning' crew members to be paid off or being tossed around trying to operate in heavy seas. Not to mention trying to type when the options were either to have all the letters piled on top of each other or turn the typewriter 180° and it fell into her lap.

She takes some exception to a statement in the Journal by W4EWS/MM which stated that girls are trained as combination R/O-Pursers in Norway. News to her she says ...Both girls and boys were in fact trained as radio-operators only, then they went to sea and assigned duties as combination radio-ops and pursers. The training as purser was done on board by sheer determination to cope and figure out what the job involved. It carried a few bucks extra wages so incentive was there. She also takes exception to charges about fuse-changing or replacing of tubes or any manual or technical ability to keep equipment operating is sub-standard for YL's assigned. They can and do handle their work as well as (and sometimes superior) to men assigned. (No disrespect to the OM's she says).

Kristi admits to being a "DX-CHASER. She reports that OM-Jim and herself just returned from Sarawak in East Malaysia where she signed 9M8NL and Jim 9M8JS. They made 10,500 QSOs mostly on CW even though condx were not good. NEXT VENTURE is to HEARD ISLAND which is located in the Indian Ocean (South) about 72°35E and 53°01S Latitude. Kirsti will be the only YL on the expedition and probably first ever on Heard Island. ( Turn to next page please)

## Vox Pop - continued

Kirsti and Jim belong to a group called the "Heard Island DX Ass'n. QTH is P.O. Box 90, Norfolk Island, South Pacific, 2899. You can use the simple acronym "HIDXA" in the address. The Ass'n. has chartered an old whaler what carried the name Torbyrn (Norwegian) but now the Australian CHEYNES II. In its day it made 37 trips into Antarctic waters. Kirsti says the "DXpedition" needs money as do most all of this nature and invites sponsorship and financial support from clubs, societies and private individuals. This is probably one of the most inhospitable and cruel areas of any ocean and it will be quite a task. Details on the "DXpedition" of members interested can be secured from HIDXA at above address. Time is growing quite short so suggest any DX'er send an airmail w/o delay for full details. Meanwhile, Kirsti (SOWP 3534-M)... we wish you and OM Jim along with all members the best success in reaching your contact goal of 50,000 or over. This is truly an antipodal area to the U.S.A. and Canada plus being one of the most isolated spots on earth, hence we would guess that a QSO w/QL card from Heard Island would be a true "Collecto's Item. Note: A bit of late news in the Amateur Radio Section on this DXpedition. QTH of Kirsti and Jim Smith is PO Box 103, Norfolk Island, Australia.

Picture of member Anny Schwager (nee Loderer) 1943. Anny sends "greetings" to all Ladies of SOWP. Serial SOWP 3010-V. DF 2 SL

### SHORT NOTE FROM GERMANY

Anny Schwager, 3010-V whose QTH is Ulrichstr. 21, 7918 Illertissen, West Germany sent the news clip at the bottom of the page which appeared in a West German newspaper. She encloses note as follows: "Today a short note will go to you, perhaps also with interest for the "Sparks-Journal". I have received all your News-paper and - very interest to read about all the Ladies in the Journal. Quick I was looking for a photograph of my military time in Air-force - so I have found one. Sorry for the spots on it. Otherwise I have found in local NewsPaper a report of a Lady in the US-Navy and will send it to you. Its all for now and hope it will be a healthy and successful year for you. its wishes ... Anny DF2SL .

### ZIP CODES FOR SHIPS

The Postal Service is assigning zip codes to ships at sea, especially the larger ships. So far 188 new zip codes for 638 Navy, Reserve, USCG, Military Sealift Command and National Oceanic and Atmospheric Adm. ships assigned. Example: The carrier Nimitz is now 09542 and the Eisenhower is 09532. This will expedite mail, especially to larger ships which carry more crewmen aboard than small towns have people.

The more of everything you share, the more you'll always have to spare. For only what you give away, Enriches you from day to day.

### CHRISTMAS COMING UP - The Perfect Gift ?

Why not give a "Lighthouse" to the friend who has 'everything ' ? The U.S. Government has just the thing -- a 19th century lighthouse.

GSA, the business arm of the government is accepting sealed bids on the historic Port Mahon lighthouse, located east of Little Creek in the Delaware Bay. It touts the structure as a two-story, Chesapeake Bay-style lighthouse and includes three acres of land at Port Mahon. It fails to mention the structure has been abandoned for years with all windows knocked out, walls weathered or a small detail ... it is only accessible by boat - which is impossible at low tide. tsk tsk.

### ANCHOR-MEN FOR THE CENTURY CLUB

We recently received a letter from Andrew F. (Andy) Halcrow who is our 'half-way' man on the Century Club team with Serial # 2000-P. Andy lives in Scotland on the Shetland Islands. His letter of Oct. 10 includes some pictures of seagoing days 1929-38 plus Aeradio GJF taken in 1950 which is located on some rather bleak terrain (some beautiful sheep in the foreground). Andy was No. 8707 on the roster of the Marconi Company. He enclosed pix of present QTH which quite an antenna system for station GM3KZH. Andy says he hopes to meet visiting members of the Society should they ever visit his Island. His phone number is 059-571-389. QTH: Stennestwatt, Walls, Shetland, ZE2 9PH. Andy served on the SS Duchess of Bedford, British Industry, MV Kind Edwin and others. Several pictures which we hope to bring in coming issues.

Since we observed Andy's number was #2000, we got to wondering who was Numbers 1000, 3000 and 4000, so we checked them out.

#1000 Harry E. Stahl (Spark Gap Pioneer). FS was on the USS Bagley back in 1917 (NVU). He served as personal wireless operator on Thomas A. Edison experimental ship the USS Sachem where Mr. Edison had a laboratory. The Radio Shack was part of the deck house where Edison worked so he was in constant contact and developed into a 'man-Friday' performing all kinds of tasks and experiments. Harry lives in Morrisville PA. Call is W3DH. Continued next page-

## „Alles hört auf mein Kommando!“

„Aye, aye - Lady!“ - Die US-Navy hat ihren ersten weiblichen Kapitän. Manch altgedienter Seebär murrte. Aber Oberleutnant Mary kommandiert

Von ERNST HAUBROCK  
Da stand sie nun im Hafen von New York zum ersten Mal an Deck: Oberleutnant Mary Wixson (23), der erste weibliche Schiffskommandant der amerikanischen Küstenwacht und Kriegsmarine.

Fast schüchtern blickten die zwölf Seeleute des bewaffneten Patrouillenbootes „Cape Strait“ auf die Frau mit den zwei goldenen Armelstreifen, deren Befehl sie fortan unterstellt sind.

Dann wandelten sie den Ruf: „Aye, aye, Sir!“ lautstark in „Aye, aye,

Lady!“ um. Das Eis schien gebrochen.

Aber kaum war die neue „Alte“ außer Reichweite, da begannen Diskussionen auf dem 31 Meter langen Schiff (Nummer 95308):

● Was macht die wohl bei einer stürmischen Rettungsaktion?

● Die kommt doch nie mit Umweltverschmutzern klar!

● Wehe, wenn wir mal auf heiße Rauschgiftschmuggler stoßen...

Oberleutnant Mary Wixson nimmt's gelassen: „Keine Sorge, das Schiff ist in fester Hand. Zupacken habe ich wäh-

rend meiner Ausbildung genauso gelernt wie meine Jungs auf der „Cape Strait“.

Frage von BILD am SONNTAG: Wie wird man denn weiblicher Schiffskommandant? - Oberleutnant Mary Wixson: „Bei mir waren es vier Jahre Küstenwacht-Akademie, ein Jahr Decksoffizier auf einem Patrouillenkutter und prima Noten in der Gesamtbeurteilung. Eben alles, was einen guten 'Seebären' ausmacht.“

Übrigens: Mary Wixson ist verheiratet - mit einem Oberleutnant der Navy...

Die Chefin lächelt, die Besatzung mault. Mary vor ihrem Patrouillen-Boot

# Vox PoP de Mother Hubbard<sup>☆</sup>

## 3000-P

**HARRY H. WALTERS** (W7HVN) PO Box 881, The Dalles, OR. 97058 has #3 'post position'. His first ship was the SS Admiral Evans-KICZ. Merchant Marine Service for about 45 years, much of it on "President" ships.

## #4000-P

**JAMES A. MAYBERRY, JR.** (W4GU) PO Box 1225, Live Oak, FL 32056. FS: 1933 USS Mississippi/NEKT, 1934-37 Flag ComBatDiv 3/FSN. 1945/6 FAA-Miami, FL/WBR. He is covering rear-guard position #4 very well thank you. How long will it be until #5000 joins the Society? Will the Skipper be around when that day comes? He hopes so!. Tempus fugit.

## ALASKA - "MUKLUK TELEGRAPH CALLING"

Lawrence A. (Larry) Burrow - 3383-P said he enjoyed the story of the 'Great White Fleet' - Bristol Bay issue very much. Said he ran to Alaska on the SS Queen - WGR early 1929... stopping at many canneries to deliver supplies or pick up crates of canned salmon. He wondered if G. R. Whittaker listed as operator in the story about the last voyage of the Barkentine City of Sydney was the operator at KOV - Port Herbert in 1929? Said he visited the station several times while their ship was picking up herring, also Port Alexander and numerous salmon canneries in the area. Said he made it a habit of going ashore and visiting operators at all stations to visit and get off the ship.

Whittaker/

Since Gerald A. (Jerry) lives in Santa Rosa, I called and ask him if he was at KOV at the time mentioned. Jerry replied that he was not only at the station but he had assisted 'Bob' Palmer build the 1/2 KW Xmtr (tube) and installed it at Port Herbert, which he also operated that year. Jerry said even at low power, the 340 cycle note carried well on output of 50 watts. Jerry said the "Big Day" at the cannery was July 4th at Port Alexander. Everyone took time off and collected at 'Alexander' on quite a 'spree'.

Larry left the Pac. Coast SS Lines to go with WAMCATS circa 1930. which later became the Alaska Communication System. From Ketchikan they had schedules and cleared cannery stations in S.E. Alaska. Other schedules maintained were with WXY-Nome, WXC-Sitka and many others. It is interesting to find out years later that one catches up with history and can turn memories into reality..

Larry's QTH is 701 South Main, Sp. 23, Coupeville, WA 98239. Regretfully he has let call K7EKE expire.

## ROMANCE ON THE HIGH SEAS

Member **Charlie Morrison** - 1192-P (W6VI) said "Great things happened" to him in 1929. While halfway between KSE and KHK on the old SS City of Honolulu he met his XYL-to be. Short romance ... married by Thanksgiving and left the sea for a job with Western Air Express - first assignment Albuquerque, then back to California where they have been ever since. Charlie served as Director of the Society's de Forest Chapter [III] about 5 years ago, serving with distinction.

## LAST VOYAGE - SS CITY OF LOS ANGELES - KOZC

Member **E. Lee Hamilton** informs us that KOZC, taken over by the USN and renamed USS GEORGE F. ELLIOTT [WW-2] was torpedoed and abandoned Aug. 8 1942 off the coast of Guadalcanal. The end of KOZC was covered in a book authored by Richard Tregaskis (P-53 & 73). The author saw the ship burning brightly. Our member Hamilton reports he saw the burned out hulk in 1943 - a sad sight. We have always wondered what happened to KOZC. Some had reported it was sold to the Japanese for scrap and the iron was shot back at us. Now we know the facts for which we thank our good member.

## PICTURE OF THE S.S. RUTH ALEXANDER

Member **Russ Estep** - W6AUC, Sec. Norcal Chapter QCWA would like a picture of this ship if anyone can furnish a good one to him. His QTH: 1469 El Camino Real, Belmont, CA 94002.

**USS CLAMAGORE:** Photographs, models, plaques and other items are needed for an on-board display of the USS Clamagore (SS-343) which will be at the Naval and Maritime Museum, Patriots Point, SC. Contact Aircraft Carrier Yorktown, PO Box 986, Mt. Pleasant SC 29464

**SIGNAL OFFICERS:** Mrs. F. Ellis, 4223 S. 12th Rd., Arlington VA. 22204 is compiling a locator of officers and civilians who served in the office of the Chief Signal Officers through 1962. Netbul-1-5

"BUT SIR, I ONLY COPY WEATHER REPORTS AS THEY ARE BROADCAST... I CAN'T HELP IT IF WE ARE IN A RUT ...STORMWISE."

**INFORMATION SOUGHT.** Ray Glavich, Humboldt Bay LH, Box 5121, Eureka, CA 95501 needs information on the sinking of the Japanese submarine I-17 on 19 August 1943.

**EXAMINATION CENTERS CUT:** The USCG announced that effective 1 July 1982 it would hold certification and license examinations at only 16 regional centers because of cuts in budget and personnel limitations. The 16 centers include: Boston, NY, Baltimore, Miami, Charleston, SC, Nola, Houston, Memphis, St. Louis, Toledo, Longbeach, Ca., SF., Seattle, Anchorage, Juneau and Honolulu. Netbul 1-4

**TIN CAN SAILORS:** Ever serve on a U.S. Navy Destroyer? Former sailors who have served on Navy destroyers or destroyer tenders are invited to join an organization called "Tin Can Sailors". For further information, contact E. Ward, Tin Can Sailors, Battleship Cove, Fall River, MA 02721. Netbul 1-4

**PHOTOGRAPHS:** Battle action and shipboard photographs of the U.S. Navy during WW-II are available from "Real War Photos" PO Box 728 Hammond, Indiana 46320. They apparently have thousands of photo's available. Their catalog is \$2 or you can send the name of your ship for a list of photographs available. Netbul 1-4 (Bill Willmot).

**WINTER COLD:** According to the National Oceanic and Atmospheric Adm. (NOAA), winter cold kills more people than hurricanes, tornadoes and floods. An average of 355 people died from excessive cold annually from 1949 through 1978.

**PIRACY ON THE HIGH SEAS:** It has been authentically reported on many occasions that certain stretches of the high seas in Asia, West Africa and South America, modern day blackbeards are increasingly plying coastal waters like the Barbary Pilots of the 1800's. Piracy has never been completely stamped out. However, in recent years the Jolly Roger has soared. Exxon, Shell, Mobil and British Petroleum have all acknowledged that their tankers have been hit by private attacks in the past year or so. Two of the targets have been the 90-thousand ton Shell tanker "Mamouth Monarch" and the 26-thousand ton Mobil ship "Corsicana". Netbul 4-1 (Willmot).

**PHILLIPS CODE BOOKS:** Dr. Stu Davis, W2ZH, National Telegraph Office, 1149 Weber St. Union NJ 07083, is reported to have a number of 1976 (Bicentennial Edition) Phillips Code books (with additions) still available. Copies while available are \$5.50 ppd each. Send SASE w/inquiry re: availability.

**BOOK WANTED.** Nelson D. Christian, Box 111, Haydon Road, Dixon Mo. 65469 is looking for a copy of the book "Marconi, the man and his Wireless".

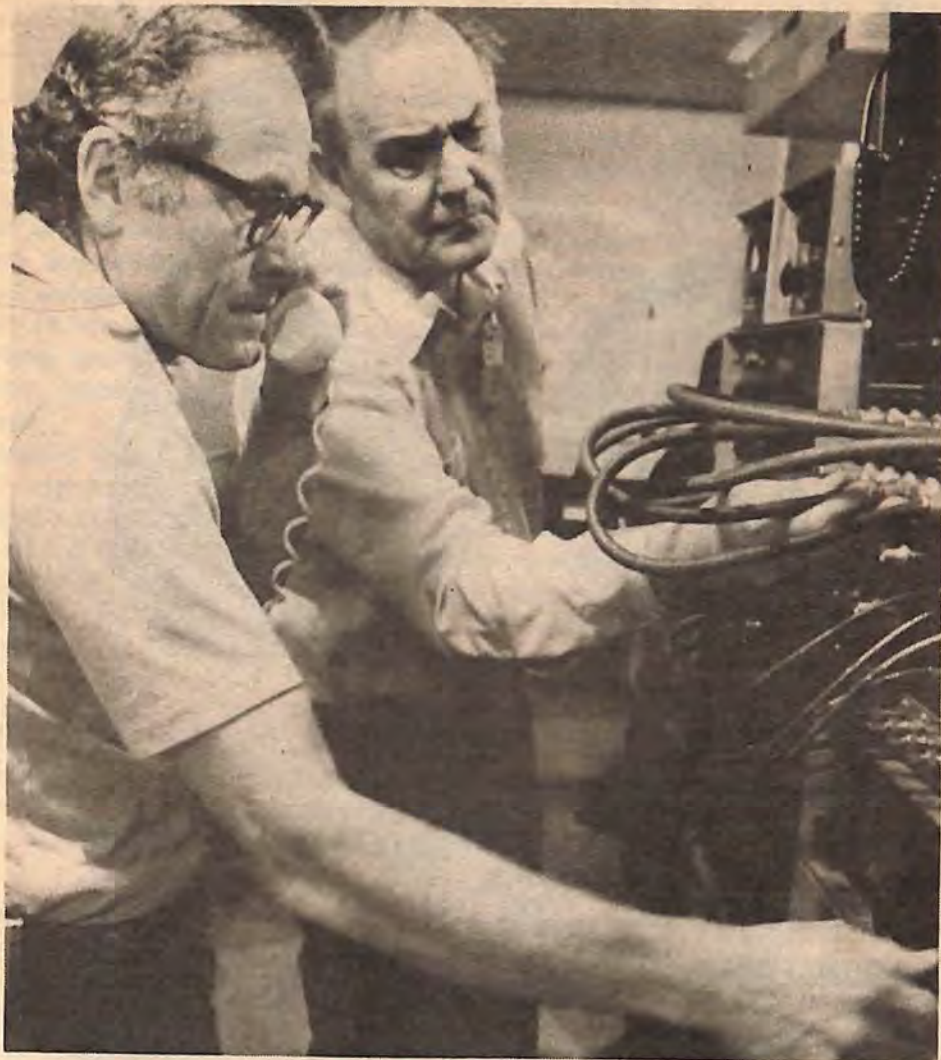

## ANTIQUE WIRELESS ASSOCIATION (AWA) MUSEUM.

If you happen to be traveling in upstate NY, be sure and stop off in East Bloomfield and visit the AWA's ANTIQUE RADIO & COMMUNICATION MUSEUM. The museum is housed in the 140 year old East Bloomfield Academy Bldg. It has one of the largest collections of early radio apparatus, much of which still works. One of the popular attractions is a replica of a completely stocked radio store of the 1925 era. The museum is open from May 1st through Oct. 31st and admission is free. Kudos to AWA for this fine exhibit.

☆covers the field!

(Continued from Page 3)

John Flatley (left) and Paul Dane (right). The NUWAX scenario took on all the aspects of the "real thing."

"We have a confirmed 'Broken Arrow' emergency, Livermore. Helicopter crash and plutonium scatter verified. Over."  
"Roger, Nevada. We read you five by five. Over."

The staccato words fill this tiny trailer, which sits at the end of a dirt road near LLNL's northeast corner. The adjacent 100-ft tower is topped by a huge rotating, spider-like high-frequency antenna, arms spread dangling over the earth like the balancing poles of a tightrope walker. The occasion? The joint DOE-DOD Nuclear Weapon Accident Exercise (NUWAX '81) that took place April 21st to 27th. Fortunately, this time, a simulation.

Amid a flurry of activity, Paul Dane, EE's communications engineer who put the emergency radio system facility together, explained, "We're using this communications link to find out what equipment our Emergency Response people in Nevada need during the week-long Exercise. Such things as additional protective clothing, extra portable radio gear...."

Said Dane, "Our operator at that end is Tom Crabtree, a Field Test Systems Division elec-

tronics technician assigned to Hazards Control. Besides the Exercise messages we exchange, we're also able to telephone-patch our people down there through to offices here at the Lab or to their families.

At Livermore, besides Dane, the system was being operated alternately by senior technologists Clarence "Pete" Davis, Frank Pacheco and Bruce Somerhalder, technologists Steve Johnson, Edward Valenzuela and Michael Zimmerman, and technicians John Flatley and Martin Loomis, Electronic Services Division's Security and Telecommunications group.

Observing the LLNL-based team in action, EN noted a gamut of skills, attributes and emotions. Efficiency. Cooperation. Sense of humor. Intense concentration. Tension. Even empathy for a few lonely callers from Nevada whose phone patches found no answer at home.

Lessons learned? If a disaster such as the NUWAX simulation should occur, a vital and proven communications link is ready and waiting, along with well-trained and competent people in EE who make it work. NUWAX '81 has "paved" the way. — Donna Lee Paquette

## If disaster comes— here's one way LLNL plans to communicate

Clarence "Pete" Davis. Inside the inconspicuous trailer is a "powerhouse" of communications equipment that links LLNL with a remote area of the Nevada Test Site.

**MORSE TELEGRAPH CLUB HONORS** namesake of the great inventor of the 'landwire' telegraph. Pictured, second from left, is the great grandson of the famous inventor of the telegraph, Samuel F. B. Morse III (W6FZZ). Others in the picture include the Society's own President (2nd from right), Judge James Harvey Brown. Standing at extreme right is one of our Sr. SGP members, Pioneer, Don Wallace [659] well known in both 'pro' and amateur circles. He is currently Pres. of the SoCalif. Chapter QCWA. "Don" has the well known call "W6AM". At extreme left is Geo. Trivett, retired 96-year old telegrapher. Standing back and right is Mr. Henry Giles, President of the Retired W.U. Employees Association. Sitting at the key is Dr. Wm C. Hess, SOWP - TA-9 who is President of the SoCalif. Chap. of Morse Telegraph Club [MTC] whose members have been active 'pro' landwire commercial telegraphers. Dr. Hess has invited SOWP members who qualify to join "MTC". Dues are \$5 per year which may be sent Dr. Hess (QTH: Box 19-M, Pasadena, CA 91102). OTC publishes "Dots & Dashes" edited by the veteran Cecil D. Combs in Lincoln, Nebr. Format is something similar to our S-J tabloid except about 10-pages. Interesting articles on early days telegraphing on railroads, W.U. Postal, Etc. Photo by Bob Jensen, W6VGQ taken at the 1982 MTC meeting in Pasadena.

## A Thumbnail Report on Society Presidents

**FRANK GEISEL - President 1970-71** (Continued from Page 1)

"FG" [ SOWP 5-SGP ] FS - 1919 SS Spokane/WGE. Some 15 ships to assignment KPH as R/O, then Chief, then Station Manager 22 years. Frank spent some of 4-decades at KPH, handled hundreds of emergencies, etc. Sent SOS from Steamship Multnomah 8/21.

**EBEN K. CADY - President [3] 1972 - 1975**

"Eb" [ 54-SGP ] FS - Tug Homer - 1922 KUMG. Went to sea on many ships to 1931 when he was posted at KFS as operator until 1939 when he became Chief, then Ass't. Mgr and Manager to retirement 1965. "Eb" held office as Senior VP SOWP 70-71; Secretary 1968-70 and after term as President, VP Finance and Audit 1976-82..

**WILLIAM A. BRENNIMAN - President [ 4 ] 1976 - 1980**

"Bill" [ 1-SGP ] FS: 1919 - SS George W. Elder-WRT. (Served in USN 1917-18 on USS Gwin-NAGX, USS West Hosokie-WFEI and at NAT-Nola (Algiers). Served on 32 ships then to Federal Airways for 30 years. Helped build and commission several communication stations. Top positions included: Deputy Chief Communications, CAA, Chief Operations Branch - Northwest Region; Chief Technical Services and Planning 11 Western States; Branch Chief, Communications Chicago area; Deputy Chief, Kansas City Area, also several major field stations including Denver, Reno, Pasco, WA, San Diego, etc. Early ham call "6BE" then W6BE. Founded Society of AIRWAY PIONEERS (1958); Founded "The American Society of Wireless Pioneers of the Seven Seas" (now SOWP) 1967. First Executive Director, then President. Last assignment, Executive Secretary (plus Editor and Publisher.) 1920 - published "The Trans-Pacific Radio Operator's Log" 5M - nearly all sold.

**JUDGE JAMES HARVEY BROWN - President [ 5 ] 1981 - Date.**

"Jim" [ 381-SGP ] FS: 1923 SS D.F. Hanlon - KDKU. Served on 10 ships to 1926 and assignment KFS. Assigned KOK (Clearwater - near LAX) to 1929, then to Bdc KFOX. Later became Councilman, City of Los Angeles and then Judge of the Municipal Court of Los Angeles from which now retired. Jim served as Director of the de Forest Chapter III when Charlie Lee became a Silent Key. He has been SOWP SR-VP 1976-1980 and currently President. Home is in the Los Angeles area.

## Salute to The Avant-Garde of SOWP Pioneers

IN APPRECIATION TO THOSE IN THE AVANT-GARDE OF SOWP

There are hundreds of officers and members, in addition to the Society's five presidents who should be listed in building the Society to its present eminence in communication organizations of the world. It has taken the enthusiastic team-work of many to accomplish the rather spectacular growth our Society has enjoyed since it was founded back in 1967.

I will list below many whom I feel should share the credit and in so doing I am sure the sin of omission will haunt me because I have inadvertently overlooked a very dedicated member. Restricted by necessary research time and in the context of listing those of the very early days, I would like to extend that appreciation and thanks to the following: Henry W. Dickow, Rudy Asplund, Rudy Fred Mangelsdorf, Earl Wohler, Jerry Whittaker, Jim Caldwell, Ralph Hazleton, Ero Erickson, Lorin DeMerritt, Prof. Herbert J. Scott, John N. Elwood, A. W. Filtness, L.M. Clement, Thorn L. Mayes, Charles Maass, Ed Raser, James E. Kitchen, Charles B. Lee, Ralph Folkman, K.H.W. Baarslag, Ed Marriner, R. S. Palmer, Gilson V. Willets, Sid Fass, Sam Corpe, Robert Shrader, Dexter S. Bartlett, J.H. McKinney, J. McCarthy, Howard Pyle, Gordon Pascoe, Lee Fasset, Ray Newby, Manuel 'Pete' Fernandez, Don P. Newman, Don K. de Neuf, Ray Meyers, Ike Colbert, Arm Brattland, Bill Gerlach, Ernie Wilmshurst, Earl Korf, Tex DeBardeleben, Brandon Wentworth, Dick Egolf, Al Holgerson, Oscar Harrison, Al Woody, "Eby" Conradt-Eberlin, Mel Grummet, Elmer Burgman, Fred Rosebury, Bill Willmot, M.G. Abernathy, Warren Green, Bill O'Brien, Jack K. Holland, John Peel, Geo. Onsom, Al Barnabei, Bill Corson, Runa Martin, F.L. Atlee, Al Fox, Harold Craig, Fred Winkel, Edw. Quinby, Cor Glerum, Al D. Brodnax, Frank Carey, Mario Spagna, Don Masten, Jack McLaren, Joe Falbo, Cyp Ferland, Geo. Sterling, Gerald Travis, Butler Osborne, John Edwards, Ken Woodman, Charles Blake, Wilbur Gross, Kyle Thompson, Les Funston, Clif. Nichols, Bill Flaneck, Les Bachman, Ken Upton, John Walter, Geo. Wilkens, "Em" Mehrling - plus hundreds more that time does not provide checking or evaluation.

It must be realized that many listed above have been called to a post in our Celestial Division. We mention them in our silent prayers and hope those unlisted will forgive inadvertencies because of time factor or other reasons. Names are 'random' listed and not in order of worthiness. A deep sense of gratitude to you all.

William A. Breniman - Founder

## Radio Helped Member Reach Top

**NESBETT, BUELL A. - 1053-P**

Depending upon the date, Pioneer member 'Buell' could answer to the 'Handle' "Sparks", "Commander", "Judge" or "Chief Justice", over the years.

He is one of many examples of how 'smart men' used Wireless as their 'stepping-stone' to advancement and high places in later life.

Buell's first job was as Third Radio Officer on the SS Sonoma/WBDT from 1931 to 1933 with his boyhood friend Eb Cady who was Chief at the time. Buell was also assigned the SS Mariposa with Sam Gazzano and the USS California State. He later took a position with Mackey at the Palo Alto transmitter site. During this time he attended Stanford University and later obtained his law degree at the San Francisco Law School.

World-War II found member Nesbett as Communications Officer and Commander where he served on the USS Ammen in the Aleutians and then as Commander on the USS Atlas through the Normandy invasion, then back to the Pacific for the Japanese invasion. Follow-in his Navy service where he was awarded the bronx star citation, he served as Judge in Alaska.

Governor Egan appointed Judge Nesbett as Chief Justice of Alaska where he served from 1959 to retirement in 1970.

Chief Justice Nesbett/ Commander Nesbett USN/Ret, has thrown out his anchor at Solana Beach Calif., where he enjoys retired life with XYL Barbara. Both shown in picture which has the ear-marks of being taken in the Orient with date line of 1982.

# BILL WILLMOT'S "NEWS-LETTER"

EDITOR: Wm. C. Willmot K4TF

**TO ALL CHOPS.** We want to take this opportunity to thank all of you who have written in and given us your comments on the Net Bulletin. We are most grateful for your inputs and your support.

**NET CHANGES.** All CHOPs are requested to notify the Editor of this Bulletin promptly when changes are made to your nets. This includes the addition of new nets or the deletion of old ones. We want to assure that the net schedules published are correct and current but we can only do this with your help.

**WHAT DO YOU WANT?** What would you like to see in these Net Bulletins? Are you satisfied with the content of the last three editions? We do need inputs so don't be bashful.

**AREA ROSTERS.** CHOPs might want to consider making a roster of all licensed amateur members residing within propagation distance of their respective nets. An invitation to those who are not already net members might very well increase net membership. There may be a number of society members who do not belong to the local chapter but who would enjoy the camaraderie found in the SOWP nets. An ideal way to contact these individuals is by the use of an amateur radiogram. Be sure to give the day(s), time(s) and frequencies used by your net(s). It has also been found helpful to publicize the fact that SOWP nets are primarily fraternal nets and not traffic nets.

**SOLID COPY AWARD.** With the influx of new members into SOWP, it is a good idea to periodically announce over the nets that the Solid Copy Award exists and the requirements for obtaining the Certificate.

**AUSTRALIAN TIME STATION.** For those who may have occasion to correspond with the Australian Time Station, VNG, their mailing address is: VNG Reference Measurements Section, Telecom Australia Research Laboratories, Box 249, Clayton, Victoria, 3168, Australia.

**NEW SHORT WAVE STATION:** Radio France International is planning a French Guiana relay station which is scheduled to be operational in 1984.

**NEW RFI SOURCE.** A new RFI source is beginning to create problems for amateurs. The new device is the CMH a multiplexer, that provides eight multiplexed voice channels over a conventional phone line. The problem is in the switching type power supply, which operates at 79 khz and generates harmonics well into the VHF region. These harmonics are radiated through the phone lines used.

**COLLINS KWM-2:** The Collins KWM-2 transceiver, normally tunes down to 3400 khz. This range can be expanded by use of a crystal type CR-18, U with a frequency of 6355 khz. The extended coverage will be from 3400 khz down to 3295 khz. No attempt should be made to go below this limit.

**WARNING:** Hand held transceivers, using rechargeable nicad batteries, can explode if a conductive object shorts the charging contacts on the case. This can occur when hand holds are carried in pockets. Here, pens, coins or even pencil lead can short the charging contacts. When using a hand-held with a rechargeable pack, exercise care to insure that loose metallic objects are kept clear of the charging contacts. A piece of vinyl tape over exposed contacts will reduce the possibility of shorting the battery.

**CW RECORDS:** On August 5, 1933, Jean Hudson, W3BAK, copied 20 wpm for 5 minutes making perfect copy on the mill. For this performance, she won the World's Championship in Class E at the Chicago World's Fair. If this sounds trivial, consider that Jean had just turned nine years old.

**NEW PREFIX.** The VP1 prefix is now history. As Belize is now an independent nation, they have a new prefix, namely V3A. Belize as most of you know was formerly British Honduras.

**JAPANESE QSL CARDS.** When routing your QSL cards via a Japanese QSL manager, please be aware that the dimensions of most Japanese cards are larger than our own and require an envelope at least 4 x 6 inches or larger. This is larger than the standard U.S. envelope.

**SPRING FOR A HAND KEY.** If you lose the spring from your J-38 hand key, a simple quick replacement can be found in most FT-243 or CR-1 crystal holders.

**INPUTS FOR BULLETIN WANTED.** All CHOPs are requested to submit items for future bulletins. THANK YOU.

**SECONDARY STATION LICENSES.** Until now, the FCC has not allowed amateurs to recover secondary calls after expiration. However, a recent ruling has given a one year grace period wherein amateurs can convert their secondary station calls to their primary station licenses. Although the FCC does not now renew secondary calls, they will transfer the secondary call to the licensee for use on his primary license - provided that the application is made within one year after the secondary license has expired. The new order went into effect on 20 April 1982.

**JAGUAR-VVHF:** The Jaguar-VVHF, a frequency hopping military tactical radio system was recently introduced. The new unit is able to switch from one frequency to another at randomly sequenced periods of up to thousands of times a minute. Frequency hopping avoids the main problems of being located, monitored and jammed.

**SOWP 1982 QSO PARTY:** In 1976, SOWP held its first QSO Party. Some 182 members took part. The number of participants however has subsequently dwindled year by year. This year, 1982, only four - repeat four - members cared enough to submit logs. The logs submitted showed a total of only 21 different stations involved in the party. It is interesting to note that all four logs were from the 4th call area and the four members submitting them were all members of the Southeastern Net. A breakdown of Amateur Call Areas participating is as follows:

W1----- 0	W6----- 2
W2----- 1	W7----- 0
W3----- 0	W8----- 1
W4----- 12	W9----- 3
W5----- 0	W0----- 2
TOTAL 21	

Based on this year's response, it is quite obvious that SOWP members are NOT interested in this type of activity. Therefore no further parties of this type are planned.

**NUMBER OF U.S. AMATEURS:** As of 1 May 1982, the FCC has reported that there are some 400,816 licensed amateurs in the United States.

**LATIN AMERICAN CONTACTS:** If you would like to make Latin American contacts, you might try the Intra-America Net. This net meets daily on 21,390 khz at 1800 hours GMT.

**SPECIAL ACHIEVEMENT AWARD:** The U.S. Army Headquarters Europe Club Station, DA1US, is offering a Special Achievement Award for making contact with DA1US on five bands. The station is located at Patton Barracks in Heidelberg, West Germany.

**GOVERNMENT FREQUENCIES:** Computer printouts of listings of government frequencies have previously been available through the Freedom of Information Act (FOIA). In a recent decision, the National Telecommunications and Information Agency (NTIA) has decided that such information can no longer be made available to the public.

**AUTO LICENSE PLATES:** Collectors of auto license plates, especially those with amateur calls, are invited to contact Mike Sullivan, N7DNU, W. 120 Waverly Place, No. 2., Spokane, Washington 99205.

**SPECIAL CALL SIGNS.** Do you like to work unusual call signs? If so, you might try NN3SI. This call was assigned to the station set up at the Smithsonian Institution in Washington, D.C. The station demonstrates to visitors the various amateur activities. It should be pointed out that visitors with amateur licenses are sometimes allowed to operate the station. At this writing, they have a regular schedule on Tuesdays at 1900 hours UTC on 28.640 mhz.

**IN THE BEGINNING.** SOWP Member Andy Clark, W4IYT, Editor of Florida Skip magazine, has started a historical collection of old timers biographies on standard cassette tapes. Andy would like for ALL SOWP members to cut a tape and send it in for the collection. Everyone in SOWP has unique experiences and backgrounds that can add new dimensions to the history of radio. Plans have been made for the tapes to be safeguarded and perpetuated for posterity. They will be available to historians and others interested in learning about the history of radio and the personalities associated with that history. Here is a chance for SOWP members to become a living part of history. Don't delay, cut a tape today and send it to: Andy Clark, W4IYT, Florida Skip OT Library, P.O. Box 501, Miami Springs, Florida 33166.

During the past year or so, mail addressed to those on this list has been returned by the PO marked "Unable to Deliver", "Left no forwarding address", "Expired" etc. We have received many PO Form 3579 on Sparks Journals addressed due inability to deliver. These Journals are destroyed by the POD after they send us notice of incorrect address. If any of our members know where individuals listed are currently living, we would appreciate be-informed of their QTH. Thank you.

### VOYAGE TO ETERNITY

CAPTAIN ARTHUR R. MOORE, Outer Winthrop St., Hallowell, ME 04347 has compiled a record of over 700 ships and 6000 men lost during WW-II with over 300 pictures which he plans to put in book form so that those who may find interest in a book recording all of the ships and men lost, will be able to obtain such a record.

Captain Moore recently retired from the Inland Waterways Div. of the Marine Dept. of EXXON where he spent nearly 25 years as Master and Pilot of small coastwise tanker and large push tows. This after many years of deep sea experience with Black Diamond Lines, American-Hawaiian, Delta, Etc.

The publication will be a complete history of the losses suffered by the U.S. Merchant Marine during WWII under one cover. Captain Moore has expended a great amount of time and research on the project. Many have of course not survived or now deceased. He would like to hear from anyone on the subject. It is understood that any revenues from

the project, over the cost, will accrue to the benefit of the American Merchant Museum at King's Point (where Capt. Moore graduated in 1944).

One of the points Captain Moore would like to clear up is the survivorship of any who may have sailed on the SS Ruth Alexander. There is much confusion as APL records show that all but one man was rescued; however USCG records show some were taken prisoner by the Japanese and two died in prison camp.

Suggest any who can furnish Captain Moore assist as it appears to be a very worth project historically. W. A. B.

### ATTENTION RADIO OFFICERS WHO PARTICIPATED IN MILITARY INVASIONS DURING WORLD WAR II.

In 1977, Congress passed a new law (P.L. 95-202, title IV) which created the right for merchant seamen and officers who served in WW-II to apply for veterans benefits administered by the Veterans Administration. The benefits of the bill has been blocked and denied by the Air Force Secretary in will be appeared in the countrs.

Now an application for veterans benefits is being filed on behalf of all merchant marines who participated in military invasions during WW-II. Joan McAvoy, Esquire, is trying to put together the story of merchant marine participation in a variety of military invasions and solicits the help of those who might help her.

She advises that she already has ample infn. on Operation 'Mulberry' at Normandy but would

to contact other WW-II merchant seamen and officers to complete a dossier to assist in the appeal. Her telephone number is 202-466-7300. Her QTH: 1150 Connecticut Avenue, N.W. Suite 815, Washington D. C. 20036.

Many of the Society's members were under attack by the enemy during WWII, in the merchant marine as well as Navy, Coast Guard and other forces. Most of these were on unprotected ships that did not have the protection of armement or built to withstand gunfire, etc. It seems a shame that this recognition has not been given to the brave men and women who manned these ships.

denchuck  
 AH, THE SOUND OF WINTER-SOS'S "

## STEVENSONS REVISIT THE SOUTH PACIFIC

Phyllis and Steve Stevenson, WB9UAE and WB9UAD, recently returned from a 7-month trip to the South Pacific, New Zealand and Australia. In the May 1982 issue of the Inland Seas Beacon (publication of the SOWP Inland Seas Chapter), the Stevensons wrote a most interesting description of their travels.

Because of limited space, we've had to take editorial license and do a little cutting. However, we have left the write-up in the author's original words. Many of you have served or visited most of the places mentioned. The article should therefore bring back many memories.

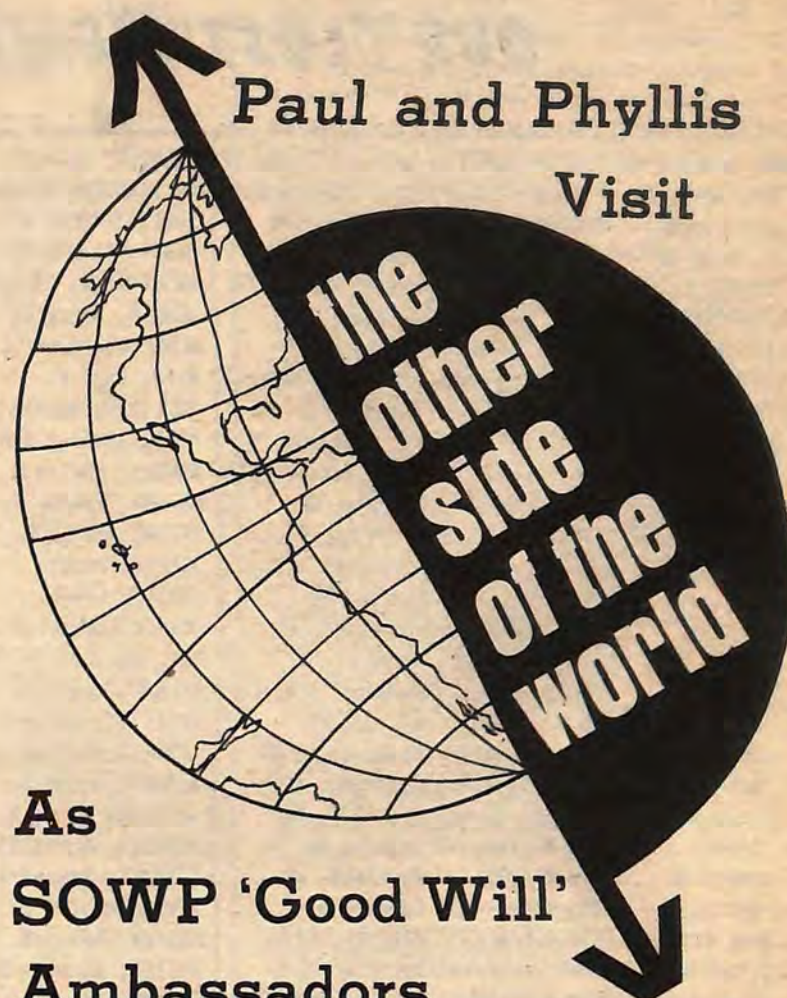

"BE IT EVER SO HUMBLE,  
THERE'S NO PLACE LIKE A SUITCASE"

by S. & P. Stevenson

At our first stop in Hawaii, we spent our short stay touring and shopping in Honolulu, and visiting the Hale Koa military recreation center at Waikiki Beach. The stop at Pago Pago was also quite short, but we were interested to see the place, since many years ago Steve was offered a job in charge of the radio communications setup there.

From the Australian mainland, we took an immediate connecting flight to New Zealand, arriving at Christchurch in fairly good shape, despite a pretty bumpy landing that seemed to get us down on best two out of three. Later we learned that Christchurch, and most other airports in New Zealand, experience constant turbulence from the air currents swirling across the straits from Australia. New Zealanders seem to bear the Aussies no grudge on this account, however, but instead seem pleased that their local airline pilots tend to become super-expert at the very tricky maneuver of setting em down in one piece. We came to the conclusion that those pilots develop their superior landing skills because they get to do it so often -- at least three times on every hop.

We toured the North and South Islands for three weeks, by plane, train, bus and boat. We crossed to the North Island by ocean-going ferry in a heavy storm -- a bit like a 3½-hour airport landing with waves. We visited Rotorua and the other Hot Springs sections, and the glowworm caves, then returned to the South Island by plane, giving the pilot two chances to demonstrate his landing prowess, with a stop at Wellington en route to Ch'church.

In the South, we took a circle tour, to the west coastal mountains and the glaciers, south along the coast, then back up to Christchurch--to get warm again. The southern ports are departure and supply points for most of the world's Antarctic ventures, and the Ch'church museum has the world's most comprehensive collection of Antarctic exploration artifacts and displays. Included in these are some pretty ingenious and cumbersome communications gear, dating back to those good old days before transistors. Some of the gear weighted more than the operator -- and seemed to get a great deal more care.

Our first serious attack of culture shock hit shortly after our arrival in New Zealand on a weekend, and finding that nothing was open from noon on Saturday until Monday morning. We spent the weekend walking around the city, leaving nose-prints on grocery store windows and looking for an open restaurant to get a meal.

Our Australian tour strategy was to cross to the west coast first, then tour our way back east. While we waited for our bookings, we did all the tourist things we could cram into a couple of days. We toured zany Sydney Opera House, that full-rigged vessel of culture that hovers on the surface of Sydney harbor just below the bridge, its white-tiled sails full to the breeze, threatening to take off at the first stiff wind. We skimmed across the bay on a hydrofoil, then chugged around the shoreline on a slow harbor cruise boat to ogle the rich-folks' mansions. There were hundreds of them, stacked one atop another up the steep slopes that surround the harbor, each clinging desperately to its tiny plot of land above the bay, so its occupants can enjoy this expensive view. Some of these lots, without house, were priced a half a million dollars or more, according to our guide.

Soon it was Westward, ho! by way of all the capital cities: Canberra (the federal capital), Melbourne (Victoria), and Adelaide (South Australia), then across the open land to Perth, the farthest city west, and the capital of Western Australia.

We traveled by bus, because it was spring, the best time to see the Outback. The road from Adelaide to Perth, a 36-hour, 75 mph express bus trip, is definitely the Outback. The cross-country route passes through bushland and timbered areas where kangaroos a-bound (sorry about that), and we certainly saw lots of them.

The lovable koalas may take over your heart, but the kangaroos believe they own the road. Fortunately, they are mostly nocturnal in their natural state, so travelers have a pretty fair shot at the roads by day. But after dark, it's 'Roos rules. Like most creatures, they enjoy the warmth of the asphalt road, and they'll stand their ground against anything on wheels.

The bushland scenery rolled by, the panorama changed to dry scrubland, and we were in Kalgoorlie, the heart of the historic Goldfields. Soon we would drive through the inland wheat growing area and down off the plateau to the coastal plain -- and Perth.

Our visit to Perth was the sentimental journey for us, and we approached it with the essential good humor. Perth is the city where we met, and married, during World War II. Perth has changed, as have we, but the city is still as beautiful as ever, and the people as friendly. We did feel, though, that they could have taken better care of the places that were important to us. The little building that housed the Australian Air Force Communications Unit where Phyl stood radio watches is now a skyscraper (by Perth standards) with a revolving restaurant atop its 32 floors.

The building nearby where Steve was a communications and coding officer at the U.S. Navy's communications center has been demolished in favor of a multi-story parking garage. The home where we later lived, overlooking spectacular Peppermint Grove, the bay from which the PBY flying boats flew their patrols, is now a luxury condominium site. Ah, progress.

We spent a month touring in a rented car, visiting old friends and relatives (well, some of them were old and some were new), and sightseeing. We drove down the coast, then inland to see the wildflowers at their peak. We crossed to the Stirling Range National Park and the Porongorups, and drove through the tall timbers of giant jarrah and karri trees.

From Western Australia, we flew directly to the "Red Center" and Alice Springs. That Australian center is red, and by far its most famous feature is Ayers Rock, the largest single rock in the world. Our genial pilot circled the monolith in a figure-eight pattern so passengers on both sides of the craft could see the rock from all sides and take aerial pictures. It was an awesome and eerie sight -- an immense red lump, surrounded by nothing but miles of more redness.

At Alice Springs, we began using our three weeks SuperAussie bus passes, which we had bought before we entered the country. We set out on our first bus tour to Palm Valley, a chasm filled with unique palms in the middle of a vast dry gulch. When we came to a road marked "Danger! Restricted to 4-wheel drive vehicles only", the driver matter-of-factly pulled over at a wide spot in the road and calmly attached a pair of metal plates to the front wheels of the bus, and we were in 4-wheel mode, in a full-sized Greyhound bus!

On the way in, the bus grunted and growled over treacherous rock-banks and huge boulders, up and down incredible inclines, and through sand deeper than the wheel hubs. On the way out, some of the non-believers panted and stumbled over the terrain to snap pictures of the bus negotiating those climbs, descents, and turns that looked simply impossible. We've looked at those pictures and slides since we arrived home, and we've come to the conclusion that it really didn't happen.

Among other forays out of Alice Springs, we traveled to nearby Ayers Rock, some 450 miles one way, where we spent a couple of days seeing the Olgas and other sights and the ROCK.

Now, there are rocks, and there are rocks, and Ayers is one of the later. The biggest rock in the world is 1147 feet high and 5½ miles around, and it looks it from any angle. For the intrepid, there is the Climb, a steep path--sometimes as steep as 45° -- to the top of Ayers Rock, aided by a stout chain that is anchored to the rock face by heavy steel posts. For the trepid, on the other hand, the first 60 yards or so of the path have no chain, so that only the able and the idiots manage to scramble up the steep surface to make the chain-assisted ascent.

We didn't bother to figure out which one of those categories included us, but we both did climb the rock. That friendly and comforting chain goes only about a fourth of the way up, and you don't find that out until you come to the end of it. The rest of the climb is marked by little streaks of white.

The ascent took us about an hour and a half, and we spent a lot of that time just sitting against the slope and supervising the world while our motors cooled down. Several times we watched a pair of large birds circling the ascent side of the rock. Some other climbers told us they were giant hawks, but we figured we knew a buzzard when we saw one.

When we finally did reach the top, we found that somebody had taken the sign-in book, but we took pictures of the view all around and of ourselves, to remind us of what we had done.

From Alice Springs we traveled south on the main highway to Adelaide, and it includes some 750 miles of corrugated, red dirt road. The bus shuddered and shook as if it could never survive another mile of such pounding. But survive it did, and we tossed and rattled our way south, through Woomera, and through the opal-mining town of Coober Pedy. We couldn't resist a stop to buy some of those pretty rocks and to tour underground "buildings in which much of the population lives and works. One was a tiny church, complete with altar, and chairs for the congregation.

## Enroute with 'Phil and Steve'

Adelaide is a picturesque city, surrounded by farmland and some of Australia's best vineyards. We passed up the Great Grapes tour, taking instead several other tours to other places of interest.

From Adelaide, we crossed to Melbourne, where Phil had served as W/T Op at VNHQ, before being transferred to Perth. Among the Melbourne tours was a trip to Philip Island to watch the emerging of the fairy penguins from the ocean. The tiny creatures - most of them no bigger than 12 or 13 inches long -- spend their days in the ocean swallowing what fish they can find, then at dusk they come ashore to feed their squawking young. Each bird waddles unerringly to its own nest, even though there are thousands of them crowded into the shrubbery, sand dunes and rock faces along the shore.

The birds are strictly protected, and spectators are restricted to roped-off areas during the "penguin parade." There are stiff fines for making noise, or snapping a forbidden camera flash, or even for not stepping out of the way should a penguin choose to walk where a person is standing -- much less attempting to touch one of the birds as it walks fearlessly by. Regrettably, the protection laws are not so well understood by the penguins' other fellow travelers on this planet. Fairy penguins happen to be a favorite food of the sea-lions that hang around the bay, their McDonald's -by-the-sea.

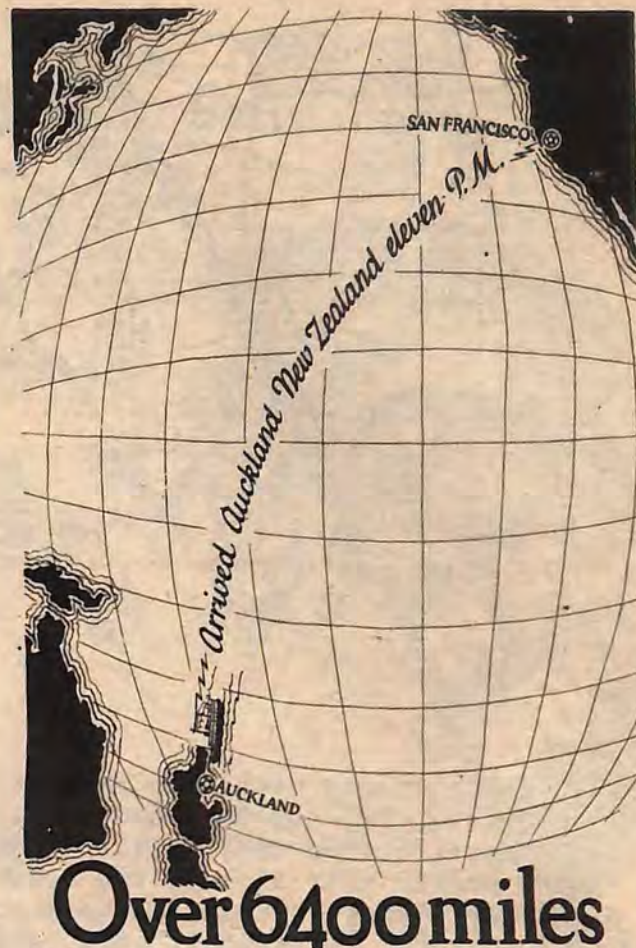

In and out of Canberra, there were more city tours and country sightseeing trips. We visited the Snowy Mountains and Mt. Kosciusko, Australia's tallest mountain, and while we thought traveling 17,000 miles around the globe to tromp around in a mess of snow in our summer sandals wasn't such a great idea, we did it anyway. We also went to the famous Tralee Station, where we learned to throw a boomerang and actually have it return -- and learned a new meaning for the familiar Ralph Nader term, "unsafe at any speed."

With most of our fingers and toes still intact, we moved back to Sydney for the last leg of our Aussie adventure. We spent one pleasant day riding the Sydney Explorer, special buses that continuously circle the city, stopping at each of the 17 tourist attractions on the route. For a one-time \$5 fee, a tourist can hop on and off at any stop, any time, for an entire day. We stayed in King's Cross, the "42nd Street" of Sydney, where if you've got the money, honey, you can rent or buy anything that crosses your mind -- or your path -- there.

We enjoyed today's Australians, in general still much like Americans, but singularly independent and not much in awe of anything or anyone. Australians

Stevensons visit Hdq. on their way

by nature take very few things seriously, but among the few are their beer, boating, betting, footer and the weekend. The White Collar crowd close their shutters on Friday afternoon, while some -but by no means all -- storekeepers somewhat grudgingly open up for the 9-to-noon Saturday trade. By 11:50, there's a burly bruiser at the entrance to every shop, turning away latecomers and snarling at the persistent (and uninformed) who dare to storm his fort.

By 11:59, the shops are darkened, and the streets are filled with people rushing to their bars, boats, betting shops, and football games. The weekend has begun. It and very little else goes on until Monday. The motorist without a private source of gas was usually out of luck over the weekend until a law was passed, requiring gas stations to open for business on a government run roster. It is at least possible to find gas somewhere, even if it does take a while to locate the area's roster for the day.

Our flight home followed the same route as the outgoing journey: first to Pago Pago, with its orchids and delicately perfumed flowers and its giant snails.

In Honolulu again, we were smart enough this time to catch the 5:30 around-the-island bus, a treat we'd missed before. But we were not smart enough to remember that in the South Pacific, when the sun goes down, the lights go out! We spent the first half hour of the tour in bright sunshine, saw a brief and spectacular sunset from the back of the bus, then spent the entire remainder of the tour in total darkness.

We take this opportunity of thanking the Stevensons for sharing their colorful and enlightening adventure with us and members of the Society.

The Brenimans felt honored to have the Stevensons stop by in their beautiful motor-coach for a brief visit on their way to Los Angeles to catch their plane for South Sea destinations in Australia and New Zealand. Their visit was all too brief!

The Stevensons spent considerable time in Australia where they had close relatives to visit and things to see. Returning stateside, they piloted their motor-coach across the South, visiting friends and seeing sights enroute to Florida, then up the East Coast into the Maritimes of Canada before returning home. A very remarkable trip and adventure.

# Special Bulletin To All Members

**PAUL M. STEVENSON - WB9UAD - [ 2677-V ] "WB9UAD"**

Appointed "ACTIVITIES EDITOR" and "Correspondence Secretary for the Society.

Most Society officers and many members realize, I am sure, the increasing heavy work-load our growing membership has brought and the problems we have in handling the input of correspondence, etc.

William C. "Bill" Willmot - 784-V (K4TF) CHOP of our Southeastern Net and Acting Director Edison Chapter has been editing a Newsletter for our nets and chapter the past several months. Some of the material included are reprinted herewith in the Skipper's Log -- Page 30. We have found them of real interest as I am sure those who are not amateurs must also enjoy.

Regretfully, Bill finds that it consumes a great deal of time to find material for his News Letter that we all enjoy so much. He sadly informs us that he has received no response to our request for clippings etc. to assist, hence this time has impinged activity commitments he made with the U.S. Army Signal Corps. Assn. - a new organization in which he has great interest.

We know his roots are deep in this service, having served through WWII in USA-MOS-740 unit on the invasion of Hollandia, New Guinea Japan and a number of Philippine locations. Bill is a 'perfectionist' and has done a wonderful job in promoting the Society over the years as Director of P&R and on the air as CHOP of the "SE" Net as well as Acting Director, Edison Chapter

Regretfully, Bill reports practically zero input from members on news and clips he could use in working up his news letters. Since the extra time required impinges on obligations he is committed to in the U.S. Army Signal Corps Assn. - a new organization in which he has great interest, he has found it necessary to drop the News Letter. We know Bill's roots are deep in this service as he served through WW2 in the USA-MOS-740 unit on the invasion of Hollandia, New Guinea, Japan and a number of Philippine actions. Bill is a 'perfectionist' and has done a wonderful job in promoting the Society over the years as Director of P&R, and on the air as Chop of the "SE" Net, etc etc. I am sure many members will be sorry to see this dropped, as we are, but understand the reason. We do wish Bill success in his new interest and project and acknowledge with thanks and appreciation his past accomplishments and continuing activities in Society progress.

Bills fine newsletters and the dropping thereof will be a "Hard Act to Follow" as they say BUT ... "The Show Must Go ON !"

Paul and Phyllis Stevenson have volunteered their time and effort, as available so we have called on them to fill the void and they have accepted. Many of our members already know this fine couple. Paul (we call him "Steve") founded the "Inland Seas Chapter [XIV]. Phyllis is the Society's VP for Chapters. Due to their extended trip, related elsewhere in the Log, they have not been able to handle SOWP matters as they would like, but now home and "in gear" so to speak. Steve publishes the 'Inland Seas Beacon' with Phyllis as Editor ... on of our best Chapter publications.

Steve has accepted assignment as Editor of "Activities" for the Society and additionally, that of "Correspondence Secretary". We are happy to confirm this appointment which will handle news from both Nets and Chapters. Since his wife Phyllis B. (Phyl) 2678-V - WB9UAE is currently Vice President Chapters and editor of Chapter XIV's very fine news letter, we think this is an excellent 'tie-in' arrangement. We have been warned however that the Stevensons have more travel plans before permanently throwing the anchor overboard - and which may not be the Chicago area. We'll have to cross this bridge when we come to it.

Our National CHOP, Seylour "Cy" Strauss [W4IKU] will continue to handle all the technicalities of our nets including Net Schedules etc. He will furnish all necessary changes to the Stevensons for publication. Please furnish any NET NEWS relative schedules etc. to Cy. QTH: 201 NE 171 St., N. Miami Beach, FL. 33162. Phone: 305/653-2932.

I am sure that all members realize the need for NEWS INPUT on both our Amateur Nets and Chapter activities to enable us to furnish meaningful information in both our "NETBULS" and "SKIPPER'S LOGS. Input of news items is urgently needed. We suggest all members watch magazines and newspapers for items they think would be of great interest to members, especially the communications and electronic field, plus shipping, flying, and of the inventors and others who have 'made history'. Phyl and Steve will select the material they think of greatest interest and edit it for both publications.

The QTH of our "ACTIVITIES EDITOR" is as follows:

PAUL M. STEVENSON  
1336 Hickory Street  
Waukegan, IL. 60085  
Phone: 312/623-4416

Should you wish a reply, please furnish a SASE to save these good friends the extra work and expense of addressing envelopes etc.

In addition to "Activities Editor", Steve will also answer many of the letters addressed HQ as our "Correspondence Secretary" thus relieving some of the load at HQ. Steve has a good background in communications in many fields including the USCG, CAA, Navy and commercial. He served in three wars. He has also been active in amateur radio since his first station W2MFR in 1939. His present call is W4IKU (1946). Continue to send all mail to HQ, Santa Rosa except news clips as noted plus net and chapter news. Cooperation of all is sincerely invited so that we can schedule our time and work to better advantage for the benefit of our members and the Society. Thank you.  
William A. Breniman - Sec.

## MEMBERSHIP INCENTIVE

A simple reminder to members that if we receive 5 or more new member applications with their name as sponsor we will extend <sup>their</sup> paid up dues for one year. This is on a calendar year basis. Those with 4 will receive a SOWP Patch (Crest); 3 - one Titanic Pin; 2 - a Decal. 1- our sincere thanks.

## CHAPTER NEWS

Due to 'extenuating circumstances', a rather indefinite explanation but the best we can conjure up, there is a great deal to be desired in our CHAPTER NEWS this issue. Earl Korf of Chapter XI and Fred Winckel C-III sent in good material but because of many problems which have delayed publication, much copy, because of time lapse has lost its value and because of space problems, will not be included. Fine material and thanks very much for the cooperation. We must say we have been short handed and also our Chapter Director as most know has been on several extended trips. I will try to give pertinent notes I have made on Chapter 'doings' in capsule form, as follows:

● CHAPTER I: Golden Gate: met 2-6-82 (Honoring the Ancient Mariner); Sea Wolf, Jack London Square. Also June 19 1992 at Villa Chartistiere, San Mateo. About a hundred attended each meeting. A fine picnic held Aug.20th in Armstrong State Redwood Park - about 70 enjoyed a wonderful outing.....● CHAPTER III de FOREST met at Taix Restaurant May 1 1982. Stan Hyde SSGP who started career in 1911 received prize and recognition for oldest member to attend. Jim Brown (President) and XYL Margaret on trip to Med. areas. Having fine trip on a cruise ship. Director Winckel reports selling a number of articles he authored. FB. Chap III has computerized their membership list. ....● CHAPTER IV - STAR OF INDIA. Bob Farris Dir. reports fine reunion of members at the Jolly Roger Rest. in San Diego May 8th. Geo. C. French appointed new Sec. Treas. SRI report Bill Gottlieb SK 7-20-82. ....● CHAPTER V - Earl Scott Dir. reports fine meeting at Dog House in Seattle with fine attendance. Johnny Peel reports Portland area group met 2/11; 5-13; 8/12 with additional meetings in Salem. We 'lost' Dexter S. Bartlett on Mar. 15th. "Old Bart" a real anchor attended almost every meeting since we started. ....● Continued on page 38.....

# SOWP CHAPTERS

## CHAPTER DIRECTORY

### CHAPTER III - DOCTOR LEE DE FOREST

Director - Fred M. Winckel 335-SGP (W6QQB) T:213/664-2388  
2070 Balmer Drive, Los Angeles, CA 90039  
AREA: Los Angeles Area. CA So. to Dana Point, East to Las Vegas and N. to Santa Maria, Fresno & Bishop

### CHAPTER IV - STAR OF INDIA

Director - Robert L. Farris [2661-P] WD6AWO, T: 714/447-2979  
1244 La Cresta Blvd. El Cajon, CA 92021  
AREA: San Diego County north to Dana Pt., and No. of US 395 to Riverside and East to Yuma.

### CHAPTER V - JACK BINNS (PACIFIC NW)

Director Earl D. Scott - 2954-P (W7FZ) T: 206/378-4744  
Crane Island, Deer Harbor, WA 98243  
AREA: Idaho, Montana, Oregon, Washington, Alaska.

### CHAPTER VI - GUGIELMO MARCHESE MARCONI

Director (\*) William P. Corson - 511-SGP VE7PC T:604/526-6000  
1011 - 8th Ave., New Westminster, BC V3M 2R5  
(\*) Acting pending election. Late Director Bill Filtness became SK June 6 1982.  
AREA: Western Canada, British Columbia, Alberta, Y.T.

### CHAPTER VII - THOMAS A. EDISON

Acting Director - William C. "Bill" Willmot 784-V  
1630 Venus St. Merritt Island, FL 32952  
T: 305/452-2090 (\*) Pending election.  
AREA: Florida, Georgia, So. Carolina

### CHAPTER VIII - ARMSTRONG

Director vacant [Volunteer needed]  
AREA: North Texas, N.Miss., Ark. Tenn., Okla.

### CHAPTER IX - ARIZONA - PACIFIC SOUTHWEST

Director - Charles R. Sewell 2507-P W7LME T:602/938-2998  
14028 North 38th Dr. Phoenix, AZ 85023  
AREA: Arizona, South & Eastern Nevada. So. Utah & Colo.

### CHAPTER X - CAPITAL AREA (WASHINGTON DC.)

Director - John J. "Jack" Kelleher 2581-P W4ZC  
3717 King Arthur Road, Annandale, VA 22003  
703/560-4438  
AREA: Washington D.C. & Contiguous 100 mile area

### CHAPTER XI - ELMO N. PICKERILL

Director - Milton Schwartz 1434-P W2SF T: 212/352-7597  
166 - 36 24th Road, Flushing NY 11357  
AREA: Within several hundred miles NYC (Also include New England until Yankee Clipper Chapter active)

### CHAPTER XII - ALOHA - CAPTAIN COOK (\*)

Director - Vacant - Volunteer needed  
AREA: HAWAIIAN ISLANDS.

### CHAPTER XIV - INLAND SEAS CHAPTER

Director - Paul M. Stevenson 2677-P WB9UAD /4416  
1336 Hickory St. Waukegan, IL 60085 T: 312/623-/  
AREA: Illinois, Michigan, Indiana, Wisc.

### CHAPTER XV - CANADIAN GREAT LAKES (North Shore) /1020

Director - Kenneth J. Taylor 1906-P VE3CHN T: 519/823/  
86 Marlborough St. Guelph, Ontario N1E 3X8 Canada  
AREA: Ontario

### CHAPTER XVIII - CENTRAL GULF COAST CHAPTER

Director - Lamar T. Hutchinson 3613-V W5NUH 504/737-2582  
356 West Avenue, Harahan, LA 70123  
AREAL LA, MS, AL, Gulf Coast, Houston to Pensacola incl.

### CHAPTER XVI - GONZALES, Vancouver Island

Director - Leonard A. "Len" Polack - 1658-SGP VE7ZH  
3111 Wood Park Drive, Colwood, Victoria BC V9C1P2  
Phone 604/478-2180  
AREA: Vancouver Island, British Columbia

### OVERSEAS - SWISS "EDELWEISS" CHAPTER

Director - Eric Walter - 1536-M HB9CHE T: 031-341-833  
Stegenweg 44, 3172 Niederwangen/BE Switzerland  
AREA: Switzerland.

### OVERSEAS - BRITAIN - UK - CHAPTER

Director - John A. Edwards 1222-V G4BVA T: 0277-210180  
81 Hunter Ave., Shenfield, Brentwood, Essex,  
England. CM 15 8PF  
AREA England, Ireland, Scotland, Wales, Etc.

### OVERSEAS - NORTHWESTERN EUROPE

Director - Cornelis "Cor" Glerum - 710-SGP PA0GL  
Nieuwe KERKPLEIN 29, 4423 AC Schore  
Netherlands. T: 01102 3185  
AREA: Netherlands, Belgium, W. Germany, France, Norway  
Sweden, Finland

### OVERSEAS - SOUTHERN CROSS - AUSTRALIA, NZ, TAHITI

Director - Frank A. Carey - 913-SGP VK2AMI T: 7261038  
142 Seville St. Fairfield N.S.W. 2165 Australia  
AREA: Australia, New Zealand, Tasmania, to Tahiti/Fiji

### INACTIVE STATUS (\*)

CHAPTER - XII ALOHA-CAPTAIN COOK (Hawaii)  
VIII TEXAS - Armstrong.

### PROPOSED CHAPTERS (\*)

CHAPTER - II YANKEE CLIPPER (ME, VT, NH, MA, RI.)  
XIII NORTH STAR - (MI, WI, ND, E/SD)  
XVII - ROCKY MOUNTAIN (UT, CO, WY, SD-W,KA-W)  
(\*) We would like to hear from members in these Chapter areas who would volunteer to try organizing a 'going' chapter in these areas. Why not drop our Chapter Director Phyllis Stevenson a line. Her QTH: 1336 Hickory St. Waukegan, IL. 60085. You will make a lot of friends who will thank you for your effort.

## Membership Recruitment Report

Mr. John Elwood, VP Membership, keeps an accurate record of yearly recruitment. Unfortunately, many who join do not indicate who was responsible for them joining, hence no credit can be given if not indicated on the form.

During 1981, two SOWP officials recruited more than 10 members each. Eight recruited 8 each and 16 recruited two each. We had a total of 110 who recruited 1 each. Top record this year goes to our Veep, John N. Elwood with 40 plus 3 extra who joined at the SOWP booth in Scottsdale. Top honors this year go to R.Hazelton, Hutchins, K Johnson, M. Quinn, E. Raser, C. Stephens, W. Breniman and W. Willmot. Those with TWO include the following: F.Barkalow A. Brattland, F. Carey, C. Coleman, P. Dane, C. Darracott, W. Koczson, G. Krulish, D. Masten, M. Mastroviti, T. Morgan, T. Ryan, P. Scott, J. Thomsen, M. Timm and S. Young. A big thank you also to those 110 additional who followed our slogan "...Every Member get a Member". Many thanks to all. It is the yeomanship and teamwork of our members that have been largely responsible for building the Society. No one recognizes this more than HQ.

## Honorary Membership & Awards

Those honored in 1982 include the following:

- General Ivan L. Farman  
Sponsor/s: Col. Robert J. Gleason / Col. Manuel Fernandez, USAF/Ret.  
SOWP "WIRELESS ACHIEVEMENT AWARD"

"Pioneer in Aviation Wireless Communications. Builder of the Army Airway Communications Systems and it's commanding General from May 1943 through World War II. The A.A.C.S. supplied all United States Forces and their Allies with aircraft communications and navigation service throughout the the world. With 50,000 men, it was probably the greatest wartime organization of radiomen and radio facilities ever assembled.

Presented for the Society by Col. Robert J. Gleason Oct. 23 1982 at the A.A.C.S. Reunion banquet in San Antonio, Texas with standing ovation of some 300 present.

- Mr. Julius A. Statton, President Emeritus  
Massachusetts Institute of Technology  
Sponsor: Fred Rosebury  
To be presented.

**AN OPEN CHANNEL TO HAPPY MEMORIES**

Data furnished. Send Corrections to CY Strauss as necessary.

## HIGH SPEED CODE TESTS

The next HIGH SPEED CODE TESTS sponsored by the Society will be run JAN. 16th, 1983 at 6:30PM PST. Both W.C. Smith, K6KYK (QTH: 67 Cuesta Vista Drive, Monterey, CA 93940) and by George Hart - W1NJM in Conn.). FREQUENCIES as follow:

K6DYK - 3690 and 7025  
W1NJM - 3636 and 7085 KHz.

SPEEDS: 40,45,50,55,60,65 snf 70 WPM. East test will consist of five minutes of plain English. One minute of perfect copy submitted to K6DYK for checking will qualify for a Certificate of Proficiency from the Society. Send all copy for W. C. Smith at QTH above assap following test. Participation in these tests is offered to all SOWP Members who wish to copy. It is a fine opportunity for all. Thanks to good friends "Smitty" K6DYK and George W1NJM to their service to our members.

#### REPORT ON SPEED TEST GIVEN MAY 2 1982:

40 WPM - John P. Weise; W. D. Hurd.  
45 WPM - William Werner, Everett W. Vaux, M. Zugermyer, Richard Barnes.  
50 WPM - George Palmer  
55 WPM - Lewis W. Henderson  
60 WPM - G.B. Simpson  
70 WPM - Douglas Brabner.

Certificates have been furnished.

## SOWP QSO CHRISTMAS PARTY

MARK YOUR CALENDARS NOW. The Society will hold its Annual Christmas CW QSO part on Sunday, Dec. 19 1982. The party will cover the full 24 hour GMT period and will be the SEVENTH annual Christmas on-the-air Party.

This special event gives members an opportunity to meet on the air and exchange Season's Greetings and other pleasantries. There are no formal exchange requirements and no need for members to submit logs.

As in past years, the call is "CQ SOWP" and all members holding amateur licenses are urged to take part. This is another opportunity to renew old friendships, establish new ones and to continue a camaraderie developed over the years.

To provide a gathering place, it has been suggested that calls be made between 50 and 60 KHz up from the low end of each amateur band.. Although he has not been on amateur bands for nearly 60 years, Ex "6BE" and "W6BE" he will send 73 to all in his thoughts and wishes. -30-

Reuel Edward Cowden [Mac] taken on SS Mormacrey - KSER 1959

## W6TBZ "Mac" Calling all "RJ" Net Members

The Key of an old "Pro" is pushing out the 'dtos and dashes' on what we used to call "The Pacific Coast Net" ( that was before we had a North and South Section. W6TBZ - "Mac" started his ham career back in 1910 (70 years ago) with calls "RL" and "RSF" in San Francisco. He received his commercial license and first post was the (Palatial) SS Northland-WNX. This was the start of a professional career which spread from 28 Feb. 1913 over nearly six decades to retirement in 1961. His first 7 ships included the SS Queen and the Pennsylvania, then to Alaska in 1914 at Ketchikan KPB; 1915 Ketchikan and Seattle KPA, then Juneau (USN) NVD. B/C at Kdys and Kfbb 22/23; 25 Geary 23/24 for RCA and hi-pwr ckts. 33/42 Ham - W6IMI/WLME; 1945-61 retred, Ship Op. out of S. F. As a kid Mac spent much time at KPH Hillcrest. Ray Walling was QSP for Mac when he joined in 1976. His retread took him back to sea during Viet Nam. "mac" has been doing a wonderful job as CHOP on what is now called ... "The Richard Johnstone" net (renamed from Pacific Coast). A nice fist that has pushed a few million words into space. We enjoy it Mac. Hope to keep you on steady for a long long time !

## Important Note about OS� Cards

Millions have been mailed all over the world. Contact RUSPRINT at P.O.Box 7575, North Kansas City MO.64116.

They furnish a very outstanding card for our members at a reasonable price for a quality product.

## More Chapter News

### CHAPTER NEWS SUMMARY - Continued from Page 35.

●Chapter VI **MARCONI** Bill Filtness Director became a SK on June 6 1982. He attended nearly every meeting we ever held. Also published the Maple Leaf Newsletter for years. Post will be temporarily filled by Sec. Treas. Will P. Bill Corson.....●CHAP VII **Edison Chap.** Bill Willmot acting Dir. Needs member to take over post. Net very busy and well attended. Ray Green - one of real early Pioneers SK 7-20-82. ....●IX - **ARIZ-SW**; Chas. Sewell reports fine meeting May 15 at Indian Craft Center near Casa Grande midway between PHX and TUC. Fine turnout and time. ....●X - **CAP-ITAL**: Meeting held Anchor Inn, 3/6; 6/19; 9/11; 11/18 good attendance (125 at last where FAA Director Helms was Prin. Speaker) Change Officers: "Em" Mehrling to John Kelleher Dir. Recent loss Max Jacobson 9/30 Heart; Excellent Roster pub. 9/82 plus several NL during year. Member Vic Clark elected as Prex. A.R.R.L. An old timer we all knew and respected... we wish him well. Al Barnabie improving but still has problems. ....●XI **PICKERILL** - Meeting held at Colts Neck Inn 4/24 and 10/7, exc. attendance reported by Earl Korf. Reports passing Pioneer Jay Quinby 12/81. NL # 25, 26, 27 published to date in 1982 - all outstanding. Editor Earl Korf. ....●XIV **INLAND SEAS CHAP.** The Stevenson (Phyl and Steve) Peregriators extraordinaire made pilgrimage to Lands of the Southern Cross then cruised through many states of the USA and Canada on return, visiting many old and new friends en route. See their story starting P-32. They say action will 'rev' up shortly.....●XV - **CANADA GREAT LAKES** - Ken Taylor, Dir. hopes pull Chapter out of inactivity in months ahead. ....●XVI **GONZALES** - VCR ISLAND Len Polack, Dir. reports several meetings held in Victoria during the past year but no real news to report. SRI Bill Filtness gone. He used to attend most meetings. ....●XVIII **CENTRAL GULF COAST** - Dir. Lamar T. Hutchinson reported quite active year for new Chap. Meeting held Jan. 31 pledged material for TRT issue SJ. (Thanks) Also fine Picnic April 18 at Fountainbleau on N. Shore Lake Ponchartrain, in Mandeville LA. Several other meetings. 3 Newsletters issued during year to members, Very enjoyable reading. ....●OVERSEAS CHAPTERS. ....●**SWISS EDELWEISS CHAPTER**: Eric Walter, Dir. reported meeting 3/6 and 11/6. Both well attended. Newsletter mailed 3/6. Group visited SwissAir TC. Zurich. Have computerized their address and amateur call list. Invited touring members to call when in Switzerland. Sent some excellent material on Nordderich-radio Station "DAN" (Many members have worked) hope publish in near future. ....●**BRITAIN**. Dir. John Edwards furnished copy of fine newsletter published in March. Regret members did not receive Titanic Pins sent by mail which probably went astray. Duplicate shipment will be made upon receipt the package does not show after tracing. ....●**SOUTHERN CROSS**. Dir. Frank Carey reported the passing of Charter Member Wm. "Bill" O'Brien in October. The TransPacific Net started many years ago still keeping excellent schedule. 30 for now. Der Ancient Mariner.

## Gold Card Members

Following are the "Gold Card"(\*) (Paid Up Life) members of SOWP:

1-Clifton T. Nichols-395-S/SGP; 2-Herbert W. Scott-838-S/SGP; 3-Laird Wise-2447-P; 4-Harry J. Unger-968-S/SGP; 5-Adm. Ellery W. Stone-1950-S/SGP(SK); 6-Wm. Nelson-2327-SGP; 7-Dwayne T. McNeil-3164-V(SK); 8-Chester C. Jolly-2784-SGP; 9-Roy C. Kline-2986-SGP; 10-T. W. Braidwood-2864-SGP; 11-T. H. Kelso-453-SGP; 12-Clark F. Koffke-1274-P; 13-Lee J. Delworth-1854-SGP; 14-Paul M. Stevenson-2677-P; 15-Phyllis B. Stevenson-2678-V; 16-Wallace H. Lelano-66-SGP; 17-Clarence W. Mulligan-1189-SGP; 18-James W. Holcomb-543-SGP; 19-Robert S. Howland-897-P; 20-Burr Stalnaker-1619-SGP; 21-Fred A. Blethen-2412-SGP; 22-Earl W. Korf-613-SGP; 23-Emory W. Readem-3025-SGP; 24-Victor C. Ulrich-962-SGP; 25-Dr. Robt. L. Kurth-1676-V; 26-Edgar A. Freitas-514-SGP; 27-James F. Kitchin-84-SGP; 28-Don C. Wallace-659-S/SGP; 29-Ernest K. Adlmann-2156-SGP; 30-Irwin Julian-1310-SGP; 31-Col. Chas. W. Hash-2704-P; 32-Andres L. Poole-391-SGP; 33-Michael Schirk-1863-S/SGP; 34-Walter Baumgartner-297-P; 35-Fred T. Garcia-2067-P; 36-Fred D. Sommer-494-SGP; 37-Dare W. Robinson-2284-SGP; 38-Chas. J. Bolvin-2716-P; 39-Dexter S. Bartlett-145-SGP(SK); Cdr. Gerald A. Estep,USN(R)-93-P; 41-Marsshall S. Killen-2226-SGP; 42-Eugene J. McHale-3002-V; 43-Raymond S. Kimberk-127-SGP; 44-Robert L. ### BOOK REVIEWS

BATTLESHIP SAILOR by Theodore C. Mason [4017-V] EAGLES OF the PACIFIC by Edwin & Jeanne Spight [3677-V] HI! I'm Johnny Sandison by Johnny Sandison [1603-V]. These books by members will be reviewed in coming issue of SPARKS JOURNAL at length. All Excellent.

We can fill orders on back issues of Sparks Journal: Vol 3/3&4; Vol. 4/2 &4; Vol. 5/1 @ \$2.50 per copy to members (Just covers cost & postage). See Pages 20-21 Vol 5/1 for contents, etc.

### BACK ISSUES SJ

### SLOP CHEST

SLOP CHEST supplies. Most are still available except #2 Labels, Limited supply Wireless Pioneer Lapel Pins @ \$4. TITANIC pins are still available (free to those with paid 1982 dues) Send Sase.

### SPECIAL THANKS

SPECIAL THANKS to many in our organization for extra help. This includes Chuck Coleman for packaging several thousand Titanic pins, Elmer Burgman, Fred Rosebury, Bill Willmot, Eb Cady, Lorin DeMerit and of course our Chapter Director and officers, Net NCS and Ancs.. Many members who have sent us clippings, books etc. for our library or reference; Many who have made contributions so their brother shipmates who have been unfortunate may continue on our active roll. I am thankful for the assist we receive from John Elwood on membership and the Stevensons. I am thankful for a good understanding wife who tolerates and helps get publications out plus other work. I am thankful for good health that allows me to serve brother members of our profession although I am slowing. 30

## Happy Holidays to All

Those of us here at HQ plus Officers and Directors of the Society would like to express our gratitude to the hundreds of loyal members who have, each in his or her own way, helped to build the Society during the past year. We wish one and all a ... "VERY HAPPY YULE SEASON AND MAY 1983 BE REWARDING TO YOU ALL". A special thanks to those who have remembered us with their Christmas Cards and greetings.

William A. Breniman  
... for our Staff.

S.O.W.P.

# 1968 - SOWP Members First Picnic

## FIRST PICNIC

Picture of Pioneer members attending Picnic Aug. 17 1968 on estate of late Capt. Dollar in Rossmoor, Walnut Creek, CA nearly 15 years ago.

Since photograph taken, the Chief Operator in the Celestial Division has chosen 13 of our members for assignments. - 30 -

1. RAY NEWBY - 49 "World's FIRST Disc Jockey" 1909 at Station "KQW" (now KCBS) for C. D. Herrold. FS 1910 SS Atlas "GN". ( Age now 90)

26. WILLIAM A. VETTER (40) FS 1909 Brage 91. Many years with SORS. Outstanding engraver. SK 7-5-1975
- 27 JOHN L. SLATER JR (9) FS 1915 - SS Multonomah/WMA Operated first radio-telephone to Hawaii. SK 8-1-1980
28. RUSSELL CARROLL (Guest)
29. SYDNEY J. FASS (25) FS: 1911 SS Falcon/WRK. COS 6-17-11 First Secretary of SOWP. SK - 6-14-69
30. BERNARD W. LaFETRA (138) FS: 1920 Klamath/WSX. SOS WSX 5/14/22.. On SS Matsonia when first radio telephone installed 1922 ( Worked SF from Hu0.
31. RAYMOND E. MEYERS (89) FS 1912 SS Commanche/KVC USN 1914-30. On Sub Nautilus (Arctic- N.Pole trip) Used receiver oscillator to send SOS that saved the Nautilus (Ex-USS-0-12). Secretary Treas. and President OOTC. Many other.
32. GEORGE S. HUBBARD (41) FS: 1910 - SS Falcon - WRF. Dist. Mgr. RCA Seattle; at "PH" w/ George Baxter. Vet. at Pearl Harbor when Japs came in. SOS/CQD 4-11-1011. (Geo now 93)
33. IRVIN W. HUBBARD - (164) FS: 1914 Nome City / WMC. Many others to 1918.
34. SPAGNA, MARIO J. (67) FS 1913 SS Camino - WQC
35. ANTHONY J. SPATAFORE - (434) FS: 1917 SS Sierra/WHJ 34 years w/plant Dept. PT&T.
36. LES. F. BYRNE - (227) FS: 1907 . Many years at "Beach" Stn. SF w/A.Y.Tuel. SK - Feb. 27 1974.

## "Thank You" Worldradio™

Many thanks to the two "Armonds". Armond Noble (N6WR) Publisher of "WORLD RADIO" and to Armond Brattland (K6EA) Editor of "The Exchange" a feature section for the fine write-up that carried the 'story' of the Society in Vol. 4, No. 4 a few months back. A reprint of the story appears on this page. Worldradio's goal is to be a valuable resource of ideas and experiences beneficial to the Amateur Radio Community. It is written by its readers. We thank Worldradio for carrying the message about SOWP to its readers. Incidentally Worldradio is an independent newspaper published monthly in Sacramento, Calif. QTH: 2120 28th St., Zip 95818. The yearly subscription rate is \$8.64. Overseas - \$1.50 extra surface.

"Arm" Brattland is a Charter Member of the Society [139-SGP]. He joined in 1968. His FS was in 1919 on the Steamschooner Celilo-WMF. He relieved 'ye-ed' on this palatial (?) ship of distinction - the only player-piano on any ship on the Pacific Ocean !!!

### SOWP - What is it?

Perhaps, while reading items in "The MART" you have noted the ad usually headed: The SOCIETY OF WIRELESS PIONEERS? You may have wondered if you were eligible, since you remember handling some paid, commercial

radiograms while you served in the military as a radio operator.

Immediately following World War II - before RCA, Globe, Mackay and other commercial radio services could get back into action - U.S. Navy stations handled a great deal of the paid-commercial radio traffic about the world. In a like manner, such traffic was handled by foreign countries and from one day to the next, while sailing around the globe, new services were being pressed into action on a temporary basis.

The writer of this column has been an active radio officer for many years. All during the war, on troop transports and as the war terminated, the troop ships often returned to carrying passengers, - long before the radio stations around the world were back in business. It became a

daily game, at such time, to listen for all possible outlets for our traffic. Every opportunity was taken to let shore stations of all descriptions know we were again a passenger vessel, in case they picked up anything for us.

What I'm trying to emphasize is: If you were a radio operator at some such facility handling paid-commercial traffic by radio to ships or between such stations, you might be eligible to become a life member of SOWP. Think back over your career as a brass-pounder and if such proud shoe fits, write to SOWP, Box 530, Santa Rosa, CA 95402. Give our "Bill" the full details and tell him SOWP Life Member, SGP-139 "sent you." If you visit a radio club, look around you; likely there are SOWP members present. Members who served prior to 1915 are classified as (S-SGP) Senior Spark Gap Pioneers. (SGP) served from 1915 to 1925; (P) Pioneers from 1926 to 1939; (V) means Veterans having served from 1940 to 1949 and (M) are Regular Members, covering the year 1950 to present date.

The purpose of The Society of Wireless Pioneers, Inc. - which is a unique international organization of wireless/radio men and women from nearly every area of the world, banding together the professional "brass-pounders" who have been posted at and have manned stations ashore, afloat and in the air - is summed up as follows:

The primary purpose and objective of the Society is that of collecting, researching, and recording the history of communications - particularly that which relates to Hertzian waves and the wireless or radio-telegraph mode of the art.

Members of the Society have joined in a common-effort - that of preserving the history and memorabilia of communications in general and that of wireless or radio telegraphy in particular. Much of this valuable information and record

material has already been lost to posterity because no single agency has ever been concerned with conserving this valuable legacy in a field of consummate importance.

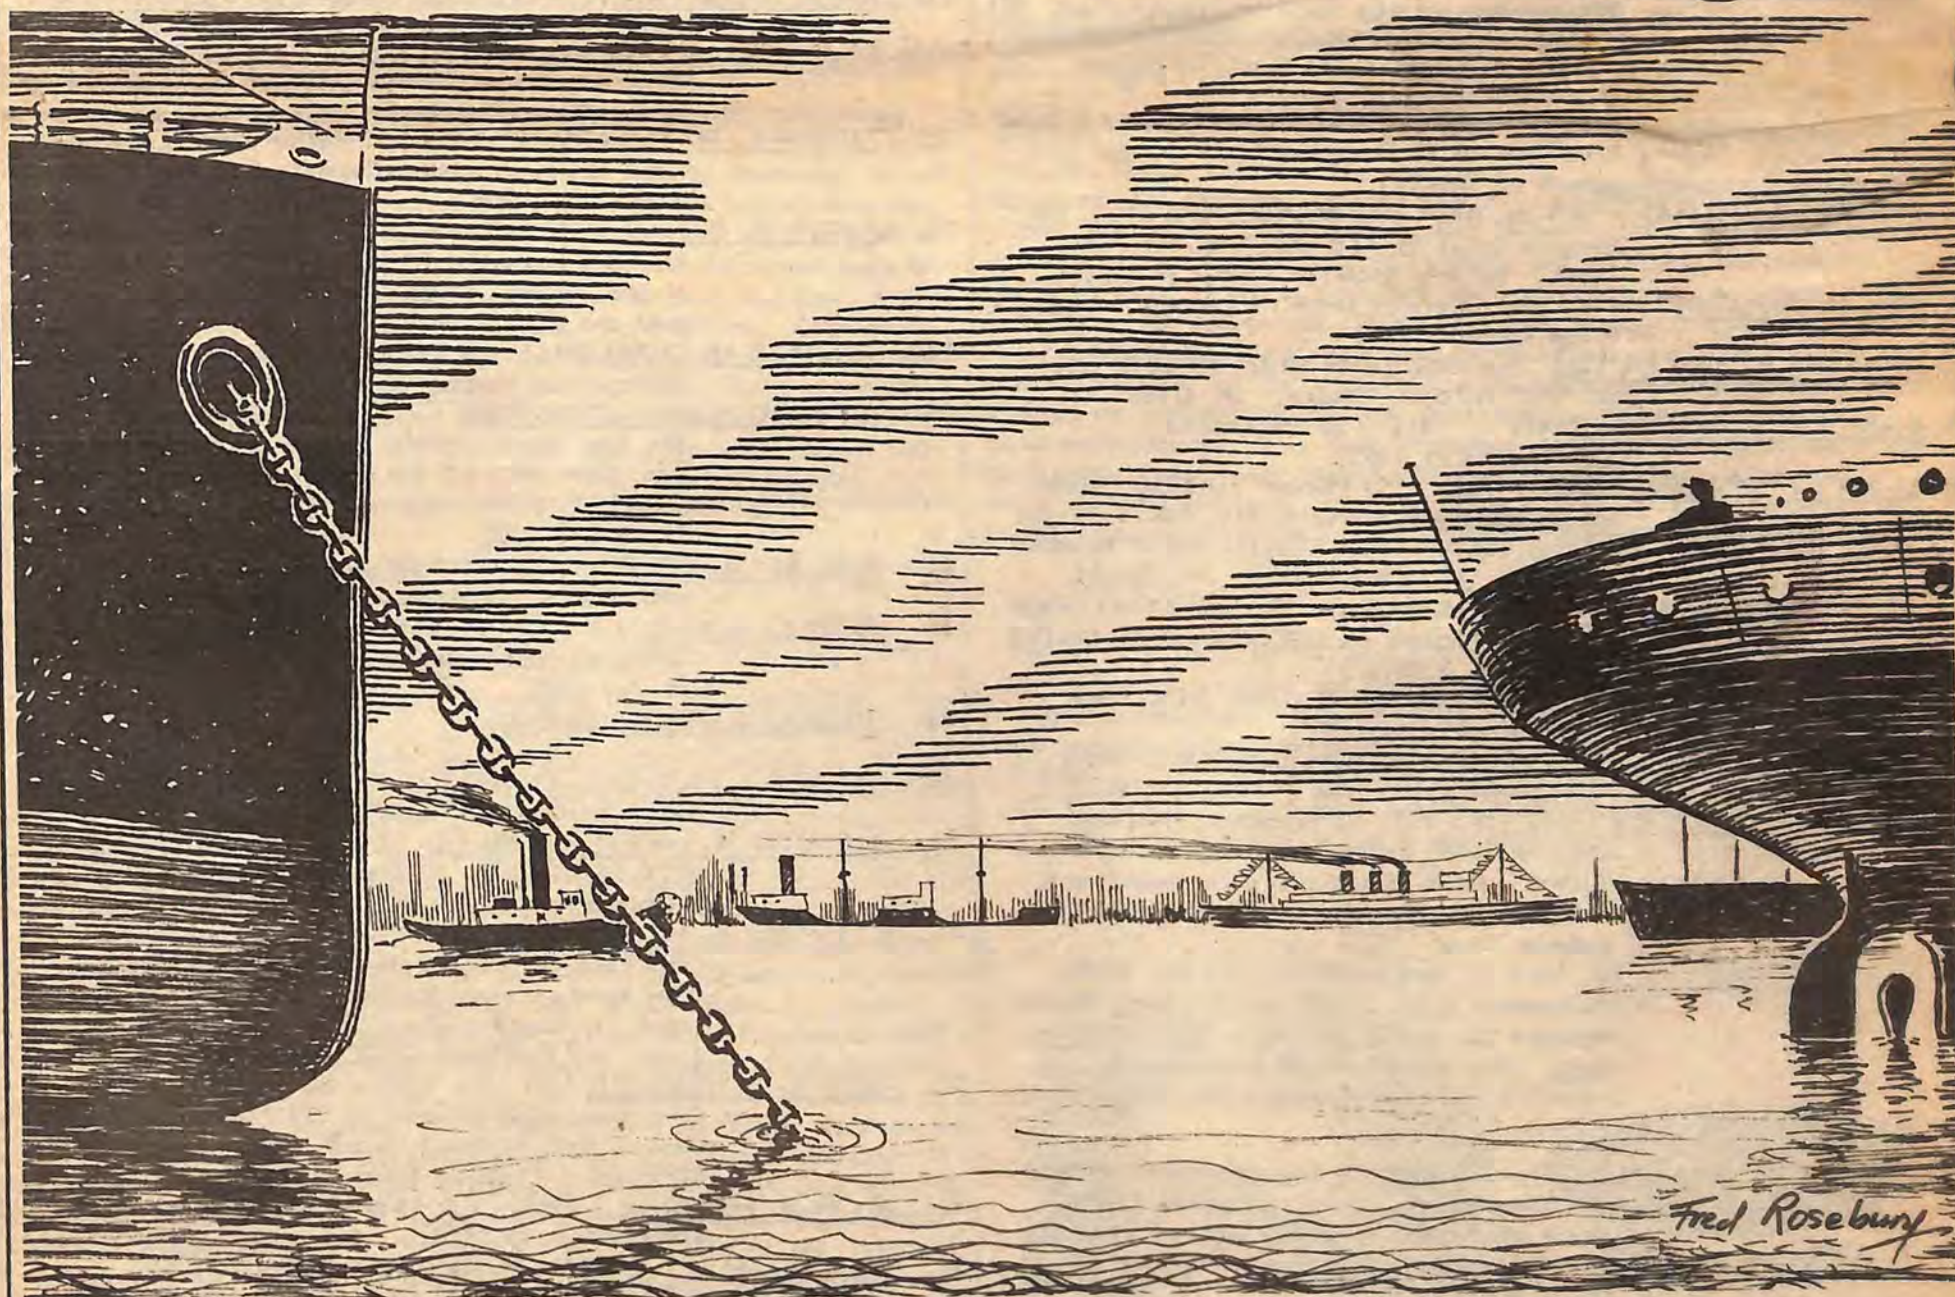

Since establishment in 1968 by its founder, Bill Breniman, the growth of the Society has been phenomenal. It has become the largest "professional" organization of its kind in the world, and is still growing at a very rapid rate.

The Society feels quite honored that we have been called upon by many nationally known libraries, universities and educational institutions for copies of our "Historical Papers" and other releases of the Society. Such acceptance and recognition is appreciated.
